“

Wahai orang-orang yang beriman! Bertakwalah kepada Allah dan hendaklah setiap orang memperhatikan apa yang telah diperbuatnya untuk hari esok (akhirat), dan bertakwalah kepada Allah. Sungguh, Allah Maha teliti terhadap apa yang kamu kerjakan.

(Q.S. Al-Hasyr: 18)

O you who have believed, fear Allah . And let every soul look to what it has put forth for tomorrow - and fear Allah . Indeed, Allah is Acquainted with what you do.

MENJAWAB PANGGILAN ZAMAN

RESPONDING TO THE CALL OF TIME

"Kami atas nama kaum duafa menyatakan kemerdekaan dari penjajahan kemiskinan. Hal-hal mengenai pelaksanaannya diselenggarakan secara seksama melalui program-program pemberdayaan berdasarkan asas: cepat, cermat, tepat, hemat, manfaat dan martabat," demikian bunyi proklamasi pembebas kemiskinan yang disampaikan Parni Hadi, selaku inisiator sekaligus pendiri Yayasan Dompot Dhuafa Republika.

"We, in the name of the duafa declared the freedom from poverty occupation." The implementation matters are carried out carefully through empowerment programs based on these principles: fast, meticulous, precise, thrifty, beneficial and dignified," the statement of the poverty alleviation proclamation was said by Parni Hadi, as the initiator and founder of the Republika Dompot Dhuafa Foundation.

Tepat di 2018, 25 tahun sudah Dompét Dhuafa hadir di Indonesia. Kolom kecil di halaman depan koran Republika pada 2 Juli 1993, menandakan kelahiran lembaga filantropi Islam tersebut.

Selama 25 tahun juga Dompét Dhuafa menjawab panggilan zaman dengan terus tumbuh memberikan manfaat, mengangkat kehidupan duafa melalui berbagai program pemberdayaan ekonomi, pendidikan, kesehatan, sosial, juga dakwah dan kebudayaan.

Proklamasi pembebasan kemiskinan yang dibacakan sang inisiator menjadi landasan semangat Dompét Dhuafa “Menjawab Panggilan Zaman” untuk memerdekakan kaum duafa dari penjajahan kemiskinan, melalui program-program pemberdayaan yang cepat, cermat, tepat, hemat, manfaat dan bermartabat.

Menyongsong 25 tahun kedepan, semangat “Menjawab Panggilan Zaman” harus terus digelorakan. Dengan menghadirkan berbagai solusi dari kesenjangan masyarakat, inovasi untuk percepatan, juga terobosan-terobosan lainnya demi menyejahterakan masyarakat duafa.

Di 2018 rangkaian peristiwa bencana menjadi perwujudan kami dalam menjawab panggilan zaman dengan berbagai inovasi kebencanaan. Ada Motor Kilat, Dapur Umum Keliling, Hospital Keliling, hingga sekolah ramah gempa.

Digitalisasi pun dilakukan untuk menjemput dan menebarkan kebaikan lebih luas salah satunya dengan bawaberkah.org. Ke depan baik zakat, infaq, wakaf, ataupun sedekah akan lebih mudah dan dekat dengan muzaki juga wakif.

In 2018, Dompét Dhuafa has been established for

25 years in Indonesia. A small column on the front page of the Republika Daily newspaper on July 2, 1993, marked the birth of this Islamic philanthropic institution.

For the past 25 years, Dompét Dhuafa has responded to the challenges of time by continuing to grow and providing benefits, elevating the lives of the poor through various economic, educational, health, social, as well as da'wah and cultural empowerment programs.

The poverty liberation proclamation read by the Initiator became the ground spirit of Dompét Dhuafa “Responding to the Call of Time” to liberate the duafas from the colonization of poverty, through empowerment programs that were fast, meticulous, precise, thrifty, beneficial and dignified.

Towards the next 25 years, the spirit of “Responding to the Call of Time” must continue to be stirred up. By presenting various solutions from society disparity, innovation to acceleration, as well as other breakthroughs for the welfare of the duafas.

In 2018 a series of disaster incidents became our epitome in answering the call of times with various innovations in times of calamities, such as Motor Kilat, Dapur Umum Keliling (Portable Emergency Kitchen), Hospital Keliling (Moveable Hospital) and earthquake-resistant schools.

Digitalization was also done to pick up and spread the wider goodness, one of them was bawaberkah.org. In the future, both zakat, infaq, waqf or alms will be easier and closer to muzaki and wakif.

SAMBUTAN PENGURUS YAYASAN DOMPET DHUAFA REPUBLIKA

*Message from the Board of Directors Dompot
Dhuafa Republika Foundation*

Segala puji bagi Allah subhanahuata'ala yang telah memberikan nikmat kepada kita sehingga dapat melewati perjalanan tahun 2018 dengan sebaik-baiknya.

All praise is due to Allah Subhanahuata'ala that has given us all the grace for us to pass 2018 well

Alhamdulillah pada tahun 2018, kami dipercaya mengelola donasi sebanyak Rp 325,2 miliar, dan sebanyak Rp 276,29 miliar dana telah disalurkan ke 2,3 juta jiwa dan layanan. Dana tersebut terhimpun dari 57.139 donatur yang berasal dari perorangan, komunitas, dan korporasi. Tahun 2018, penyaluran program Dompot Dhuafa difokuskan pada 5 pilar, yaitu program pendidikan, kesehatan, ekonomi, sosial, serta dakwah dan budaya.

Tema "Menjawab Panggilan Zaman" diambil untuk 2018, mengingat usia Dompot Dhuafa yang menginjak seperempat abad dan siap menyongsong 25 tahun berikutnya.

Alhamdulillah, di 2018 pula rangkaian bencana yang merupakan ujian dan teguran dapat dilewati bersama. Muhasabah dan syukur jadi sebagian cara kita untuk menyikapinya, selain dengan bahu-membahu gotong-royong memulihkan keadaan. Peristiwa yang berlangsung seakan menjadi ujian bukan hanya untuk penyintas, juga bagi insan yang ingin mengulurkan bantuannya.

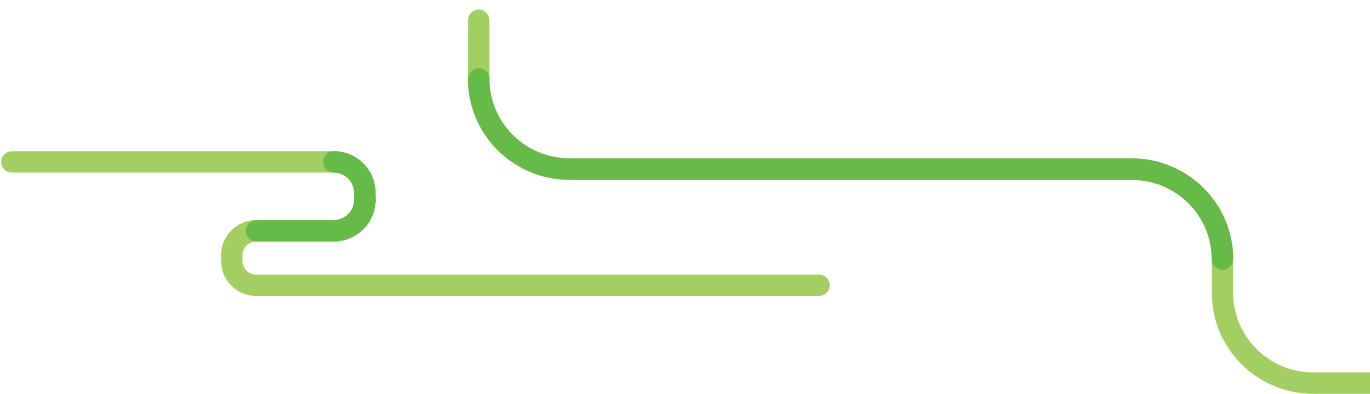

Alhamdulillah, in 2018, we were entrusted to manage donation in sum of 312.5 billion rupiahs, and 258.5 billion rupiahs which were distributed to 2.3 million people and services. The funds were collected from 57,139 donors, ranging from individuals, communities, to corporations. In 2018, the distribution of the Dompot Dhuafa program was focused on five pillars; education, health, economic, social, also da'wah and cultural programs.

The theme of "Responding to the Call of Time" was taken for 2018, considering the age of Dompot Dhuafa has been a quarter century and ready to meet the next 25 years.

Alhamdulillah, in 2018 a series of disasters, which were seen as tests and reprimands could be passed together. Muhasabah and being grateful are part of our ways of responding to them, in addition to cooperating with each other to restore the conditions. The events that took place seemed to be a test, not only for survivors but also for those who wanted to contribute their support.

312,5

milliar yang disalurkan
ke 258,5 juta jiwa dan
layanan

Jalur yang terisolir, sumber daya yang amat terbatas, hingga karakter bencana baru yang belum teridentifikasi penyebabnya seperti multibencana di Sulawesi Tengah membuat Dompot Dhuafa perlu berikhtiar dengan hal-hal baru yang lebih efektif.

Dari pengalaman 25 tahun sebelumnya Dompot Dhuafa tentu memiliki bekal menjawab panggilan zaman, salah satunya dalam meringankan beban penyintas bencana-bencana tersebut. Total Rp 34 miliar disalurkan Dompot Dhuafa untuk lebih dari 281.245 jiwa korban bencana sepanjang 2018 di Indonesia, termasuk gempa di Lombok, tsunami di Sulawesi Tengah, dan tsunami di Selat Sunda.

Berbagai inovasi pun dihadirkan untuk mengembalikan senyum masyarakat terdampak bencana. Dapur umum yang semula diam di satu titik, kini lebih bisa menjangkau pelosok dengan Dapur Keliling (Darling) yang dibangun diatas truk. Jalanan terjal dan sempit pun kini bisa ditembus dengan layanan Motor Kilat yang membawa tenaga medis dan obat-obatan ke pelosok bencana. Motor-motor itu telah membantu lebih dari 40 desa/kelurahan sepanjang 2018.

Penyintas bencana yang harus melakukan tindakan operasi segera, kini tidak harus menunggu sampai ke rumah sakit besar yang jauh. Hospital Keliling (Hoping) menjadi solusi Dompot Dhuafa menghadirkan ruang operasi darurat di tengah para penyintas.

Di ranah wakaf, Dompot Dhuafa sebagai salah satu yang terdepan mengelola amanah wakaf akan lebih siap dengan berbagai kebijakan, peraturan, dan sistem untuk menjamin amanah wakif. Dompot Dhuafa pun kian mendekatkan arti wakaf kepada semua kalangan.

Wakaf itu harus mudah, kata siapa wakaf produktif harus tanah, harus gedung, bangunan, rumah? Kita punya uang berapapun itu bisa dikumpulkan jadi wakaf produktif. Kita akan dekatkan wakaf pada semua lapisan usia, muda-tua.

Hingga 2018, ada 42 aset wakaf yang terkumpul, dan 14 di antaranya sudah beroperasi produktif menyejahterakan duaafa, seperti Rumah Sehat Terpadu (RST) di Zona Madina Bogor, Perguruan Al-Syukro

Isolated lanes, very limited resources, to the character of the new calamities in which the cause has not been identified yet, i.e. multi-disasters in Central Sulawesi, have pushed Dompot Dhuafa to work with new and more effective things.

From the previous 25 years of experience, Dompot Dhuafa certainly has the capacity to answer the challenges of the times, one of which is to ease the burden of survivors of these disasters. A total of 34 billion rupiahs was distributed by Dompot Dhuafa for more than 281,245 disaster victims throughout 2018 in Indonesia, including earthquakes in Lombok, and also tsunamis in Central Sulawesi and the Sunda Strait.

Various innovations were also made up to put back the smile on the affected societies. Public kitchens, which were initially set up at one point, are now more capable to reach the remote areas with Movable Kitchen (Dapur Keliling/ Darling) which is built on trucks. The steep and narrow roads can now be penetrated with Speedy Motorcycle (Motor Kilat) service that brings medical personnel and medicines to remote areas. Those motorbikes have helped more than 40 villages/districts throughout 2018.

Disaster survivors who need to carry out immediate surgery, now do not have to wait to reach large hospitals that is probably too far from the disaster area. Hoping Hospital becomes Dompot Dhuafa's solution that provides an emergency operating room among survivors.

In the area of waqf, Dompot Dhuafa, as one of the leaders in managing the waqf mandate, will be more prepared with various policies, regulations, and systems to guarantee the mandate of waqf. Dompot Dhuafa is also getting closer to the real meaning of waqf to all waqf circles.

Waqf should be easy, who says productive waqf must be in the form of lands, buildings, or houses? No matter how much money we have now, it can be saved and collected into productive endowments. We will bring waqf closer to all ages, young and old.

Up to 2018, there had been 42 waqf assets collected, and 14 of them had been operating productively for the welfare of duafras, such as Integrated Hospitals (RST/Rumah Sakit Terpadu) in Madina Bogor Zone, Al-Syukro Universal

Universal Tangerang, hingga pertokoan produktif di Pasar Santa Blok A dan Pasar Bonang yang hasilnya didonasikan untuk kaum duafa.

Kemudahan untuk berdonasi dan berwakaf pun diakomodir oleh *crowdfunding* *bawaberkah.org* yang diresmikan di 2018, dan mulai banyak menjangkit donasi.

Hal-hal tersebut hanya segelintir cara Dompét Dhuafa menjawab panggilan zaman. Program-program lainnya pun masih terus berjalan seperti program ekonomi yang transformatif; melahirkan usahawan-usahawan baru dan mengubah mustahik menjadi muzaki, program kesehatan melalui 5 rumah sakit, 11 layanan kesehatan cuma-cuma, 8 program pemberdayaan, 3 klinik, 19 gerai sehat dan 71 pos sehat yang melayani dan mengadvokasi masyarakat secara langsung, serta program-program lainnya yang tersebar dalam lima pilar utama program (pendidikan, kesehatan, ekonomi, sosial serta dakwah dan budaya).

Isu-isu kemanusiaan di dunia internasional tidak luput dari perhatian Dompét Dhuafa pada 2018. Dalam kiprah internasional, Dompét Dhuafa memberikan bantuan kemanusiaan untuk pengungsi Rohingya di Bangladesh disusul bantuan-bantuan ke negara lainnya seperti Gaza, bantuan pengungsi Suriah, hingga menebar hewan kurban ke negara korban konflik yaitu, Bangladesh, Suriah, Filipina, Palestina, dan Myanmar.

Di penghujung tahun, semangat “Menjawab Panggilan Zaman” Dompét Dhuafa dianugerahi Anugerah Syariah Republika 2018, sebagai *The Best Philanthropy Institution*, juga *Moeslimchoice.com Award* sebagai Lembaga Kemanusiaan Terpopuler.

Oleh karenanya, kami ucapkan terimakasih sebanyak banyaknya kepada para donatur (individu, komunitas, atau) mitra kerja, dan semua pihak yang terus kebersamai dan mendukung program-program Dompét Dhuafa hingga bisa terus menjalankan tugas-tugas kemanusiaan sesuai dengan visi-misi yang selama ini diemban. Semoga kerjasama dalam kebaikan ini akan terus berlanjut hingga di muka bumi hanya tersisa kebaikan itu sendiri.

Tangerang College, and productive shops in Blok A Santa and Bonang Market, in which all the profits gained, goes to the duafas.

*The ease to donate and waqf was accommodated by *bawaberkah.org*, a crowdfunding which was officially inaugurated in 2018 and began to attract many donations.*

These things are only a handful of ways Dompét Dhuafa answers the challenges of the times. Other programs are still running well, such as the transformative economic program; creating new entrepreneurs and transforming mustahiq into muzakki, health programs through 5 hospitals, 11 Free Health Services, 8 empowerment programs, 3 clinics, 19 health outlets and 71 health posts that serve and advocate the society first hand, as well as other programs ranging over five main pillar programs (education, health, economics, social and da'wah).

in 2018, international humanitarian issues are still constantly monitored by Dompét Dhuafa. In its international engagement, Dompét Dhuafa provides humanitarian assistance to Rohingya refugee in Bangladesh followed by assistance to other areas such as Gaza, Syrian refugee, to spreading Qurban animals to the countries suffered by conflicts, such as Bangladesh, Syria, the Philippines, Palestine, and Myanmar.

At the end of the year, Dompét Dhuafa's spirit of “Responding the Call of Times” was awarded in Republika Sharia Award 2018 as The Best Philanthropy Institution, and also by Moeslimchoice.com Award as the Most Popular Humanitarian Institution.

Therefore, we would like to convey our gratitude to donors (individual, community, or corporation) and all parties that continuously complement and support Dompét Dhuafa's programs, enabling us to continue implementing humanitarian activities in accordance with our vision and mission. Hopefully, this cooperation in goodness will continue until there is only kindness remains on earth.

JEJAK LANGKAH *MILESTONES*

Yayasan Dompot Dhuafa Republika, atau selanjutnya disebut juga sebagai “Dompot Dhuafa”, adalah lembaga filantropi Islam yang berkhidmat dalam pemberdayaan kaum duafa dengan pendekatan budaya melalui kegiatan filantropis (welas asih/kasih sayang) dan usaha sosial profetik. Lembaga nirlaba milik masyarakat Indonesia yang berkhidmat mengangkat harkat sosial kemanusiaan kaum duafa dengan dana ZISWAF (Zakat, Infak, Sedekah, dan Wakaf), serta dana lainnya yang halal dan legal, dari perorangan, kelompok, atau perusahaan/lembaga. Pendirian Yayasan Dompot Dhuafa Republika bermula dari keprihatinan Parni Hadi selaku Pimpinan Redaksi Harian Umum Republika pada pegiat dakwah pedesaan di Yogyakarta, yang memiliki tanggung jawab besar namun bergaji kecil. Pada 2 Juli 1993, sebuah rubrik di halaman muka Harian Umum Republika dengan tajuk “Dompot Dhuafa” pun dibuka. Rubrik tersebut adalah upaya mengundang pembaca berpartisipasi pada gerakan peduli pada kaum duafa. Pada 14 September 1994, Yayasan Dompot Dhuafa Republika pun didirikan. Erie Sudewo ditunjuk oleh Parni Hadi yang menjabat sebagai pimpinan Republika saat itu untuk mengawal Yayasan Dompot Dhuafa dalam mengumpulkan dan menyalurkan dana ZISWAF melalui berbagai program kemanusiaan, antara lain kebutuhan kedaruratan, bantuan ekonomi, kesehatan, dan pendidikan bagi kalangan duafa. Profesionalisme Dompot Dhuafa kian terasah seiring meluasnya program kepedulian dari yang semula hanya bersifat lokal menjadi nasional, bahkan internasional.

Dompot Dhuafa Republika Foundation, then called “Dompot Dhuafa” and “Institution”, is a non-profit institution that belongs to the Indonesians that are devoted to improve duafa’s humanitarian social dignity with ZISWAF (Zakat, Infaq, Shadaqah, and Wakaf) fund and other funds which are lawful and legal from an individual, group, or corporation/institution. Dompot Dhuafa Republika started from Parni Hadi’s concerns as Dompot Dhuafa editorial head to the rural dawah activist in Yogyakarta that had big responsibilities with low wage. On July 2, 1993, a column in the front page of Republika newspaper entitled “Dompot Dhuafa” appeared. The column was an effort to gather readers to participate in duafa care movement. On September 14, 1994, Dompot Dhuafa Republika Foundation was established. Erie Sudewo was appointed by the head of Republika at that moment (Parni Hadi) to guide Dompot Dhuafa Foundation in raising and distributing ZISWAF fund in forms of various humanitarian programs for emergency needs, such as economy, health, and education aids for the duafa. Dompot Dhuafa professionalism is sharpened along with the expansion of care programs from local at the beginning to national, even international.

In 2003 Triawan Munaf redesigned Dompot Dhuafa logo with the color composition changes from the previous logo.

Tahun 1997

Semakin tingginya kepercayaan masyarakat kepada Dompot Dhuafa sebagai lembaga pemberdaya, maka manajemen mengadakan sayembara pembuatan logo baru Dompot Dhuafa, dengan Triawan Munaf, Agus Ikwat, dan Erie Sudewo sebagai juri. Dari hasil sayembara ini kemudian keluar pemenang dengan desain logo dua huruf “D” yang menyerupai mata kail.
The more people’s belief to Dompot Dhuafa as an empowering institution, the management held a competition of new Dompot Dhuafa’s logo creation, with Triawan Munaf (currently Kepala Badan Ekonomi Kreatif (the Head of Creative Economy Agency)), Agus Ikwat (once a personnel of Sruada singing group), and Erie Sudewo (one of the board leaders of Dompot Dhuafa) as the judges. From this competition, the winner is the logo design with two Ds that resemble anglers.

Tahun 2010

Pada tahun 2010, logo Dompot Dhuafa kembali mengalami perubahan. Logo baru ini berbentuk segitiga diamond atau bisa juga javelin (mata lembing). Logo ini memiliki filosofi bahwa Dompot Dhuafa tidak boleh pasif, ia harus menasar donatur secara aktif dan cepat, dan di saat yang bersamaan harus mengejar mustahik (duafa) hingga ke pelosok negeri.

In 2010 Dompot Dhuafa logo had another change. This new logo is in the shape of diamond or javelin. This logo has a philosophy that Dompot Dhuafa cannot be passive. It has to aim the donors actively and fast, and at the same time it has to find mustahiq (duafa) to the country’s remote areas.

PROGRAM PENDIDIKAN

EDUCATIONAL PROGRAM

Pendidikan merupakan aset penting kemajuan bangsa, yang dapat mengubah individu, dunia, dan peradaban. Dompot Dhuafa sebagai Lembaga Amil Zakat, ikut ambil bagian dalam perjuangan mencerdaskan bangsa, mendirikan beberapa jejaring dengan berbagai program pendidikan gratis serta beasiswa untuk pelajar unggul yang tidak mampu.

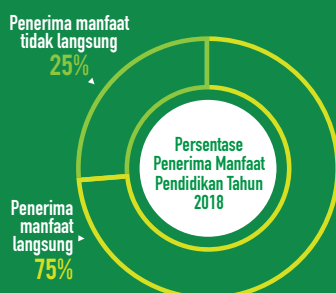

Banyak prestasi yang diukir juga lulusan yang terbukti tidak kalah dengan sekolah-sekolah unggul lainnya di Indonesia. Tidak hanya menjangkau siswa dan mahasiswa, ada pula program pendidikan dan pendampingan untuk guru dan sekolah, yang tersebar di berbagai daerah di Nusantara.

Dengan dedikasi yang tinggi untuk pendidikan Indonesia, Dompot Dhuafa telah bersinergi dan mengembangkan program-program pendidikan sebagai perwujudan misi lembaga yang ingin melahirkan kader pemimpin berkarakter dan berpotensi. Program-program pendidikan tersebut di antaranya:

Education is an important asset of the nation's progress that can change individuals, the world, and civilization. Dompot Dhuafa, as the Amil Zakat Institution, has taken part in the struggle to educate the nation and has established several networks with various free education programs and scholarships for superior students who could not afford it.

Many achievements are also obtained by graduates who are proven to be as good as other top-quality schools in Indonesia. Not only reaching students, but there are also educational and assistance programs for teachers and schools, spread in various regions in the archipelago.

With strong dedication for Indonesian education, Dompot Dhuafa has synergized and developed education programs as an institution's mission epitome to create Characterized and Competent Leader Candidates. Some of those programs are as follows:

Penerima manfaat langsung adalah penerima manfaat yang langsung mendapat manfaat program dan telah mengikuti seleksi resmi dari Dompot Dhuafa. Penerima manfaat langsung secara rutin mendapatkan monitoring dan evaluasi dari pengelola program agar dapat diketahui dampak program yang dijalankan.

Penerima manfaat tidak langsung merupakan penerima manfaat yang tidak mengikuti seleksi resmi sebelumnya, tetapi secara tidak langsung mendapatkan manfaat program Dompot Dhuafa lewat kegiatan program pendidikan, seperti siswa sekolah dampingan SLI, masyarakat Desa Produktif, adik asuh yang merupakan program peserta Beastudi Indonesia, juga kegiatan-kegiatan pengabdian yang dilakukan siswa SMART Ekselensia Indonesia.

Direct beneficiaries are those who directly get the benefits from the program and have taken an official selection from Dompot Dhuafa. They routinely receive monitoring and evaluation from the manager of the program so that the impact of the program being implemented is able to be acknowledged

Indirect beneficiaries are those who did not take the official selection in advance, but they indirectly get the benefits from the Dompot Dhuafa program through educational activities, such as SLI assisted school students, Productive Village communities, foster children who are a part of Indonesian Scholarship participants, as well as service activities carried out by Indonesian SMART Ekselensia students

SMART

(SEKOLAH MENENGAH AKSELERASI INTERNAT)
EKSELENSIA INDONESIA

Sekolah Menengah Akselerasi Internat (SMART) Ekselensia Indonesia adalah sekolah bebas biaya, unggulan, berasrama, dan akselerasi pertama di Indonesia dengan jenjang SMP-SMA ditempuh selama 5 tahun. Sekolah yang terakreditasi “A” BAN PT 2013-2014 ini, diperuntukkan khusus murid laki-laki dengan keterbatasan finansial, dan bertujuan untuk mengoptimalkan potensi kecerdasan mereka, agar sukses di masa depan.

Sejak berdiri 29 Juli 2004, kurikulum yang diterapkan di SMART Ekselensia Indonesia memadukan sistem pendidikan sekolah dan sistem pendidikan asrama. Hal tersebut ditujukan untuk membina siswa menjadi pribadi mandiri dan bertanggungjawab. Dalam 14 tahun perjalanannya, SMART Ekselensia Indonesia berhasil menghantarkan lulusannya masuk ke perguruan tinggi ternama di Indonesia serta sederet prestasi akademik dan nonakademik lainnya di dalam dan luar negeri.

Sejak tahun 2004, sekolah berbasis zakat ini telah berhasil meluluskan sepuluh angkatan dengan lebih 93% lulusannya hari ini tersebar di berbagai perguruan tinggi negeri terbaik di Indonesia.

Indonesia Internat Accelerated Secondary School (SMART) Excellence is the first tuition-free, outstanding, boarding and accelerated school in Indonesia with a primary school-secondary school level of 5 years. The school that gained “A” accreditation by Indonesia Accreditation Agency for Higher Education (BAN-PT) 2013–2014, is intended for male students with financial limitations and aims to optimize their intelligence potential in order to be successful in the future.

Since founded on 29 July 2004, the curriculum implemented at SMART Ekselensia Indonesia has integrated the school education system and the boarding school education system. This is intended to foster students to become independent and responsible individuals. In its 14 years of journey, SMART Ekselensia Indonesia has certified its alumni to enter prestigious universities in Indonesia and has received numerous academic and non-academic achievements within the country and overseas.

Since 2004, this zakat-based school has successfully certified ten generations with more than 93% of graduates now spread across the best state universities in Indonesia.

PROGRAM KESEHATAN

HEALTH PROGRAMS

Kesehatan adalah sektor penting yang sangat mempengaruhi kualitas dan kesejahteraan hidup masyarakat. Ketersediaan dan kualitas layanan kesehatan yang baik tentu dibutuhkan oleh setiap orang, tidak terkecuali kaum duafa. Tidak dapat dipungkiri bahwa kaum duafa sering kali menghadapi kesulitan dan hambatan dalam mendapatkan layanan kesehatan berkualitas akibat minimnya sumber ekonomi yang dimiliki atau layanan yang tersedia.

Program Kesehatan yang dikembangkan oleh Dompot Dhuafa adalah sebagai suatu upaya dalam membantu kaum duafa yang tidak mampu melakukan pengobatan dengan biaya yang besar dan akses layanan berkualitas terutama di daerah-daerah dengan fasilitas kesehatan terbatas. Hal ini sejalan dengan visi Dompot Dhuafa, menjadi lembaga yang memberikan pelayanan berbasis keadilan pada masyarakat yang lemah dan belum beruntung, khususnya dalam hal kesehatan.

Melalui Layanan Kesehatan Cuma-cuma (LKC) yang didirikan pada tahun 2001, Dompot Dhuafa kembali memperluas program kesehatan dengan mendirikan program layanan kesehatan sekelas Rumah Sakit berbasis wakaf dengan nama Rumah Sehat pada tahun 2012 dan berkembang hingga saat ini. Program-program tersebut telah melayani pasien duafa secara gratis dengan pelayanan yang berkualitas.

Health is an important sector which greatly affects the quality of life and welfare of the community. The availability and quality of good health services is certainly needed by everyone, including the poor. However, it is undeniable that the duafa often deal with difficulties and hurdles in accessing qualified health services due to the lack of economic resources they have or available services.

The Health Program developed by Dompot Dhuafa is an endeavor to help the poor who cannot afford high-cost medical treatment and have limited access to qualified services, especially in areas with limited health facilities. This is in line with the vision of Dompot Dhuafa that is aiming to be an institution that provides justice-based services to frail and less fortunate communities, especially in terms of health services access.

Through Free Health Services (LKC), which was established in 2001, Dompot Dhuafa has again expanded its health program by establishing a health care program in the same level of waqf-based hospitals with the name Rumah Sehat Dompot Dhuafa (RSDD) in 2012 and it is still expanding up to this day. These programs have served less fortunate (dhuafa) patients for free with top notch services.

LKC

LAYANAN KESEHATAN CUMA-CUMA

Layanan Kesehatan Cuma-cuma (LKC) merupakan perwujudan balai pengobatan yang memberikan akses layanan kesehatan tingkat dasar yang layak dan optimal secara gratis bagi kaum duafa.

Sebagai lembaga nirlaba sejak Oktober 2001, LKC Dompot Dhuafa bertekad memecahkan masalah tanpa menimbulkan masalah baru, salah satunya dengan melibatkan partisipasi aktif seluruh masyarakat secara komprehensif melalui layanan:

- **Promosi kesehatan (promotif)**

Promosi kesehatan adalah program-program untuk mengedukasi masyarakat agar peduli terhadap kesehatan diri dan lingkungannya, melalui berbagai pendekatan kampanye pentingnya Pola Hidup Bersih Sehat (PHBS), Sanitasi Total Berbasis Masyarakat (STBM), dan banyak lainnya.

- **Pencegahan (preventif)**

Preventif merupakan program pencegahan penyakit dengan deteksi dini/screening penyakit tidak menular dan pengelolaan pertamanya. Contohnya seperti deteksi gula darah, jika ditemukan diabetes maka akan dikelola untuk kontrolnya, agar tidak jatuh ke komplikasi berat.

Free Health Services (LKC) is a manifestation of a health center that provides access to free and optimal basic level health services for the poor.

As a non-profit institution since October 2001, LKC Dompot Dhuafa is determined to solve problems without raising new problems, one of which is by involving the entire community in a comprehensive way through services:

- **Health promotion (promotive)**

Health promotion is a program to educate the society to care more about their health and their environment, through various campaign approaches such as the importance of a Clean Healthy Lifestyle (PHBS), Community-Based Total Sanitation (STBM), and many others

- **Prevention (preventive)**

Preventive is a disease prevention program by early detection/screening and first management of non-communicable diseases. For example, detection of blood sugar level, if there is a sign of diabetes, he/she will be advised for regular control, preventing them from severe complications.

Sedangkan penderita asma, diajarkan dan dibuatkan kelompok senam asma sehingga angka kekambuhannya menurun. Untuk kanker, dilakukan tes IVA pada penerima manfaat sebagai deteksi dini kanker leher rahim dan sebagainya.

- **Pengobatan (kuratif)**

Kuratif adalah program upaya pengobatan dari tingkat Pemberi Pelayanan Kesehatan (PPK) tingkat 1 di Gerai Sehat hingga rujukan di Rumah Sehat Dompot Dhuafa atau mitra lainnya dari LKC.

LKC menjadi induk dari gerai sehat atau program pemberdayaan kesehatan yang tersebar di berbagai daerah. Saat ini Dompot Dhuafa mensinergikan 11 LKC yang tersebar di wilayah Nangroe Aceh Darussalam, Sumatera Selatan, Banten, DKI Jakarta, Jawa Barat, Jawa Tengah, DI Yogyakarta, Nusa Tenggara Timur, Sulawesi Selatan, Kalimantan Timur dan Papua.

Tahun 2018 ini LKC melahirkan gerai sehat baru, yaitu Gerai Sehat Madiun dan Gerai Sehat Bandung yang masih berdiri sendiri. Dalam prosesnya kedua gerai sehat ini akan disinergikan dengan LKC provinsi, yaitu LKC Jawa Barat dan LKC Jawa Timur.

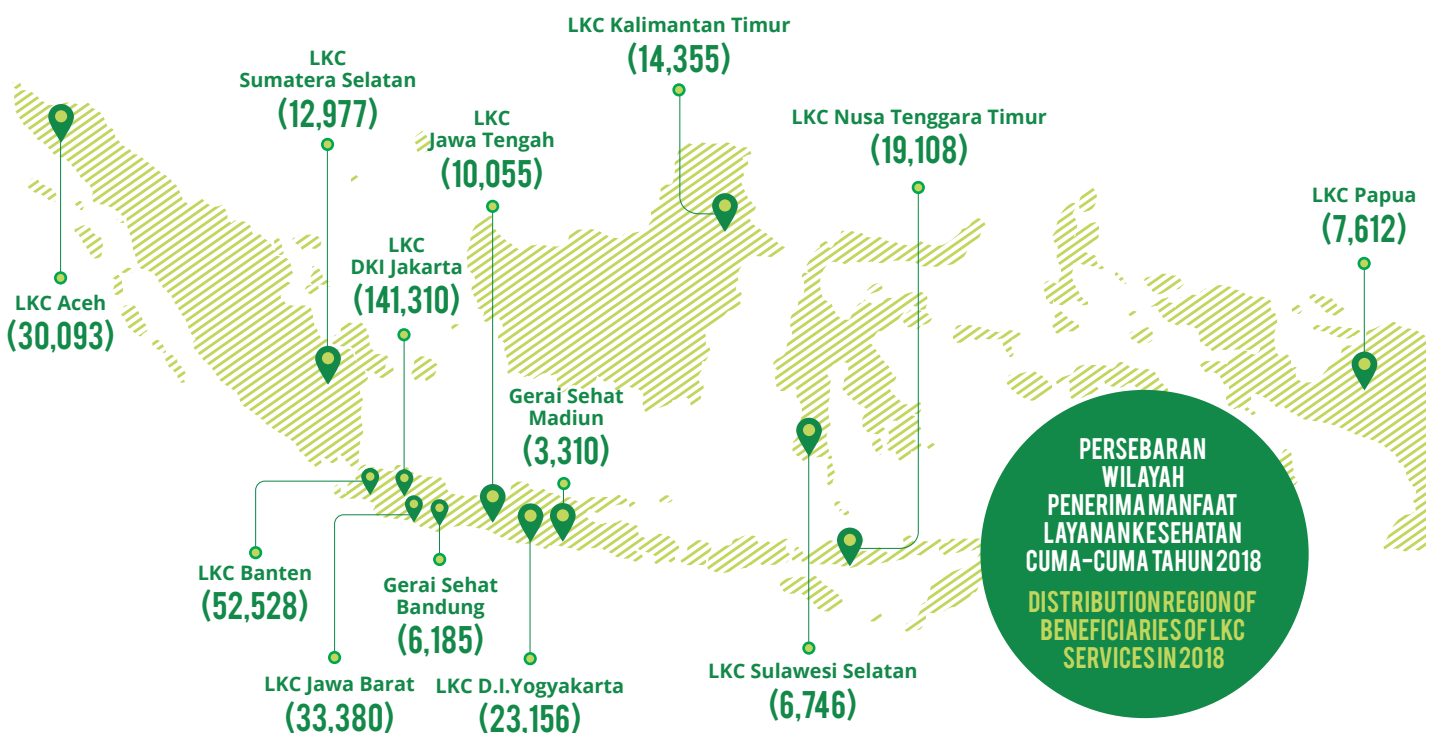

Whereas asthma patients are taught asthma exercise and made into groups so that the recurrence rate would decrease. For cancer, an IVA test is performed on beneficiaries as an early detection of cervical cancer and so on.

- **Treatment (curative)**

Curative is a treatment effort program from the level 1 health care providers (PPK) at the Healthy Outlet to referrals at the Dompot Dhuafa Hospital or other partners from LKC.

LKC has become the central health stands or health empowerment programs that are spread in various regions. At present, Dompot Dhuafa synergizes 11 LKCs in the areas of Nangroe Aceh Darussalam, South Sumatra, Banten, DKI Jakarta, West Java, Central Java, DI Yogyakarta, East Nusa Tenggara, South Sulawesi, East Kalimantan and Papua.

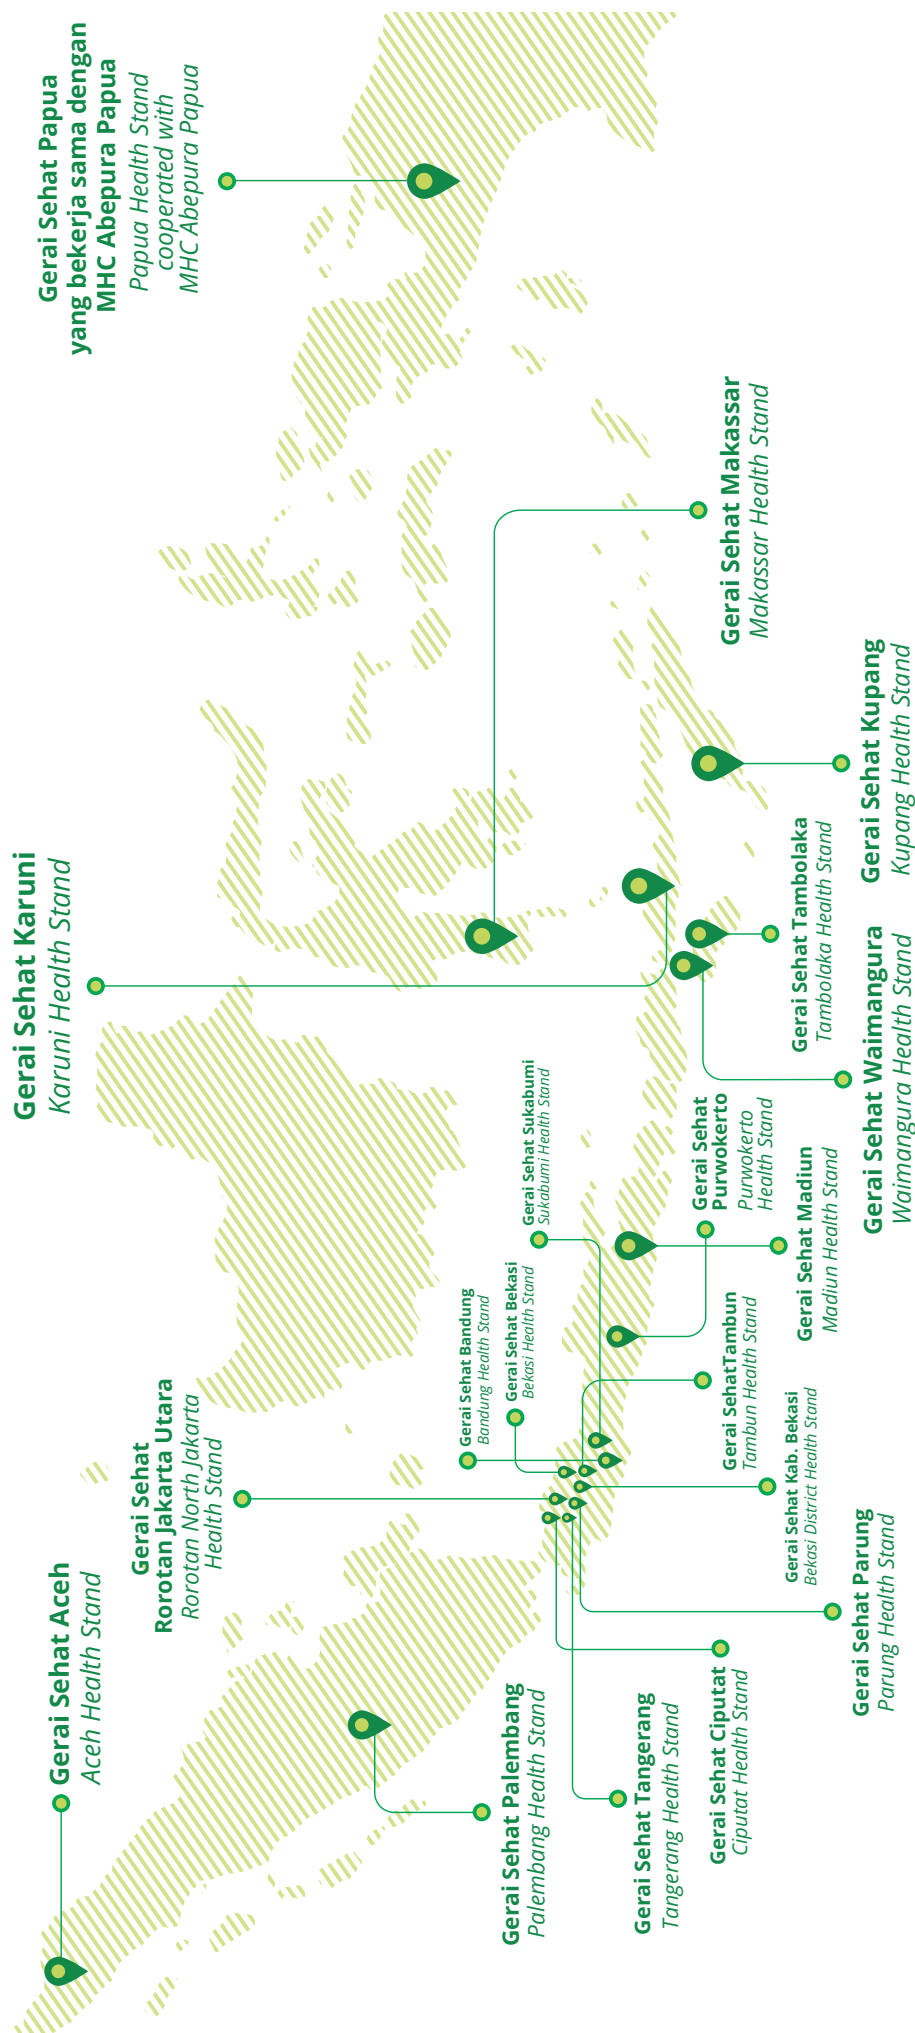

In 2018, LKC established new health stands called Madiun Health Stand and Bandung health Stand which would run independently. In the process, the two health stands would be in synergy with the provincial LKCs, which are West Java LKC and East Java LKC

GERAI SEHAT HEALTH STANDS

Untuk Pelayanan Kesehatan Tingkat Pertama, LKC mempunyai beberapa klinik yang disebut Gerai Sehat. Gerai Sehat adalah klinik kuratif yang melayani seluruh masyarakat kawasan khususnya masyarakat duafa dan kelompok marginal. Gerai Sehat ini tersebar di beberapa wilayah yaitu:

For First Level Health Services, LKC has several clinics called Health Stands. Health Stand is a curative clinic that serves the entire community in the region, especially the Duafa community and marginal groups. These Health Stands are spread in the following regions:

PROGRAM PEMBERDAYAAN KESEHATAN

HEALTH EMPOWERMENT PROGRAM

Menyehatkan masyarakat dengan pemberdayaan merupakan upaya intervensi pada faktor perilaku masyarakat, agar perilaku masyarakat sesuai dengan nilai-nilai kesehatan. Prinsip pemberdayaan masyarakat ialah menumbuhkan kemampuan masyarakat oleh masyarakat itu sendiri, sedangkan Dompot Dhuafa memantik dan mengintervensi tumbuhnya kesadaran akan pentingnya kesehatan.

Sejak 2006, LKC menginisiasi gerakan Upaya Kesehatan Berbasis Masyarakat (UKBM) bernama Pos Sehat. Pos Sehat merupakan tempat bertemunya donatur atau mitra, relawan, atau kader dengan penerima manfaat, yang didirikan di kantor RW, masjid, maupun pondok pesantren.

Penggalangan relawan yang peduli atas pemberdayaan kesehatan masyarakat tak terbatas pada kader saja, tetapi juga menyediakan ruang dan kesempatan bagi dokter spesialis yang ingin mewakafkan ilmu dan waktunya.

Selanjutnya digulirkan program unggulan berbasis kelompok yang mendukung program, yakni:

- 1 Jaring Kesehatan Ibu dan Anak (JKIA),
- 2 Anak Indonesia Sehat (AIS),
- 3 Saving Next Generation (SNG) Institute
- 4 Sanitasi Total Berbasis Masyarakat (STBM),
- 5 Kebun Sehat Keluarga (KSK),
- 6 Kesehatan Reproduksi (Kespro),
- 7 Siaga Bencana/Respon Darurat Kesehatan (RDK),
- 8 Eliminasi Tuberkulosis (TBC)

Creating a healthy community with empowerment is an effort to intervene in community behavior factors, to get their behaviour in line with health values. The principle of community empowerment is to foster community capacity by themselves, while Dompot Dhuafa sparks and intervenes in the growing awareness of the importance of health.

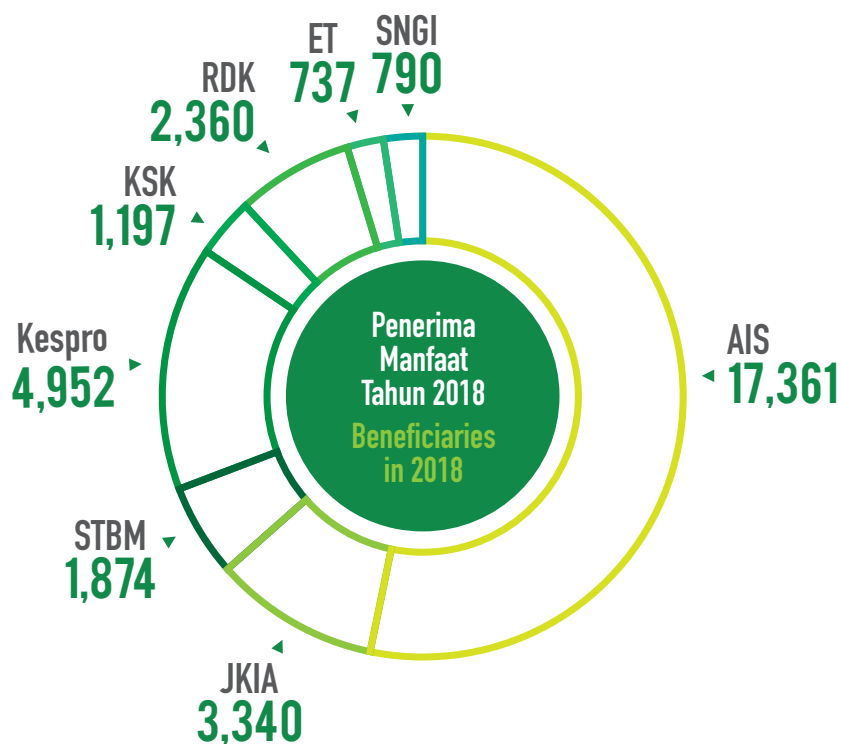

Since 2006, LKC initiated a Community-Based Health Effort (UKBM) movement called Healthy Post. A healthy Post is a place where donors or partners, volunteers, or cadres meet with beneficiaries, which is established in Citizens Association (RW) offices, mosques, and Islamic boarding schools.

Raising volunteers who care about community health empowerment is not only limited to cadres but also provides space and opportunities for specialists who want to share their knowledge and time for free.

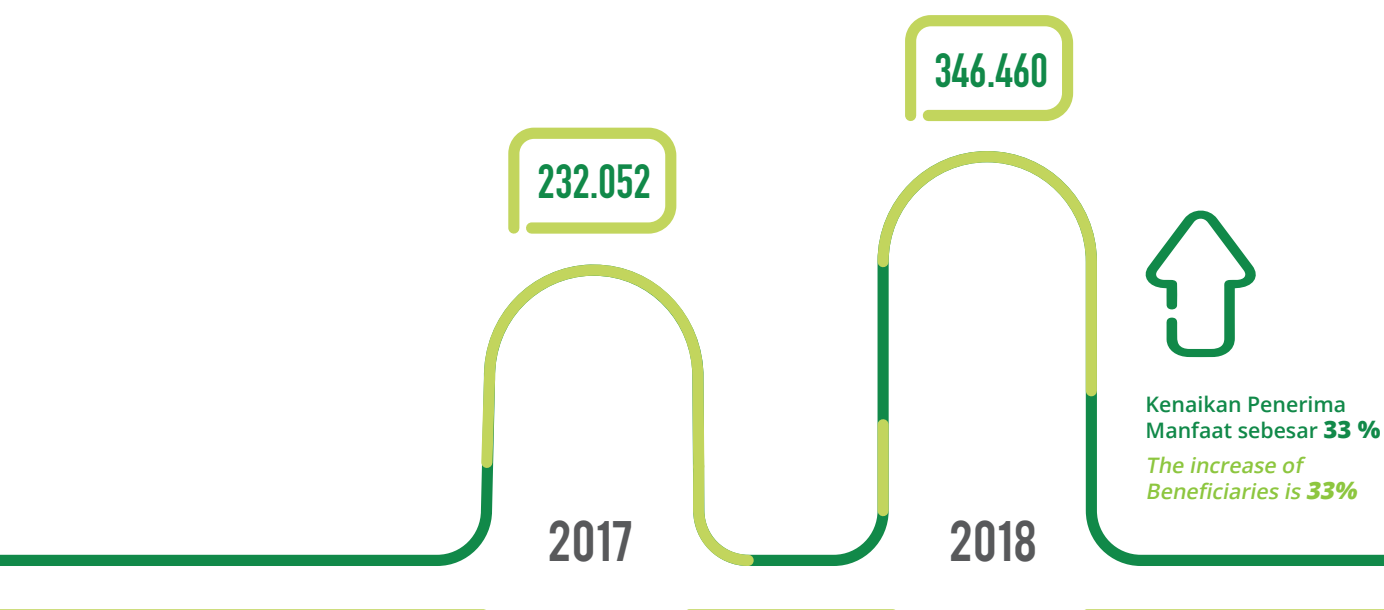

Furthermore, group-based excellent programs which support the programs are rolled out, namely:

- 1 Maternal and Child Health Net (JKIA),
- 2 Healthy Indonesian Children (AIS),
- 3 Saving Next Generation (SNG) Institute
- 4 Community-Based Total Sanitation(STBM),
- 5 Family Health Garden (KSK),
- 6 Reproductive Health (Kespro),
- 7 Disaster Preparedness / Health Emergency Response
- 8 Elimination of Tuberculosis (TBC)

RUMAH SEHAT DOMPET DHUAFA

DOMPET DHUAFA HOSPITAL

Jumlah rumah sakit dan fasilitas layanan di daerah-daerah masih sangat terbatas. Dompot Dhuafa berupaya meningkatkan akses masyarakat terhadap fasilitas kesehatan terutama pada daerah-daerah yang masih minim fasilitas kesehatannya, dengan Rumah Sehat Dompot Dhuafa.

Fasilitas kesehatan ini merupakan sebuah model rumah sakit dengan pendekatan kehangatan keluarga, ketepatan waktu, profesional, dan sentuhan hati. Pelayanan kesehatan diberikan secara cuma-cuma kepada kaum duafa yang telah terverifikasi, juga pasien umum dan BPJS yang belum mendapat akses kesehatan yang memadai. Hadirnya Rumah Sehat Dompot Dhuafa diharapkan menjadi oase di tengah maraknya kapitalisasi rumah sakit di tanah air dengan optimalisasi pemberdayaan dana zakat, infak, sedekah, dan wakaf.

Dalam perkembangannya kini sudah ada 5 rumah sakit berbasis wakaf yang dikelola oleh Dompot Dhuafa yakni:

There are many regions in Indonesia that still do not have an adequate number of hospitals and service facilities. Therefore, Dompot Dhuafa seeks to increase public access to health facilities especially in the areas that are in need by establishing Dompot Dhuafa Hospitals.

This health facility is a hospital-like service with a family-warmth approach, punctuality, professionalism and with touch of heart. Health services are provided at no cost to to verified duafa, public and BPJS patients who have not obtained adequate health access. The presence of Dompot Dhuafa Hospital is expected to be an oasis in the midst of the excessive capitalism of hospitals in the country by optimizing the empowerment of zakat, infaq, Shadaqah and Waqf.

In its development there are now five waqf-based hospitals managed by Dompot Dhuafa. They are:

PROGRAM EKONOMI

ECONOMY PROGRAMS

Program ekonomi adalah program yang dirancang untuk mendayagunakan dana ZISWAF dengan bentuk pengembangan ekonomi dan pemberdayaan masyarakat. Dompot Dhuafa telah mengembangkan program ekonomi untuk masyarakat duafa yang tersebar di hampir seluruh pelosok Indonesia.

Dompot Dhuafa secara intensif mendampingi para mustahik melalui berbagai program yang disesuaikan dengan tradisi dan potensi lokal, agar tercipta lahan-lahan pekerjaan baru. Dengan hal tersebut para penerima manfaat dapat berdaya, mandiri secara finansial, dan perlahan dapat menyebarkan kembali manfaat yang diterimanya melalui kegiatan zakat.

Program-program yang dihasilkan ditujukan untuk mengangkat harkat hidup mustahik dengan orientasi peningkatan penghasilan dan kapasitas usaha kecilnya. Kemampuan yang akan didapat mustahik seperti kemampuan mengelola usaha, kemampuan mengakses modal, membangun jaringan sinergi pemasaran, meminimalkan resiko, dan mengendalikan aset ekonomi.

Economic program is a program which is designed to utilize ZISWAF funds with the form of economic development and community empowerment. Dompot Dhuafa has developed an economic program for duafa communities spread across almost all corners of Indonesia.

Dompot Dhuafa intensively accompanies mustahiq through various programs suited to local traditions and potentials to create job opportunities. Based on this, the beneficiaries can be empowered, financially independent, and slowly be able to redistribute the benefits received through zakat activities.

The resulted programs are intended to promote the life of mustahiq by increasing increasing their incomes and their capacity of running small businesses. They will acquire abilities to manage a business, to access capitals support, to build a network of marketing synergies, to minimize risks, and to control economic assets

Ciri khas program Pertanian Sehat adalah pengembangan pertanian non pestisida yang ramah lingkungan dan aman bagi kesehatan, penumbuhan kekuatan modal sosial petani berbasis kelompok, serta penguatan sarana fisik dan jaringan sinergi pemasaran produk. Program ini hadir untuk memastikan kehidupan petani yang lebih baik serta mengurangi ancaman ketahanan pangan Indonesia.

Healthful Farming program's main characteristics are the development of environmentally friendly and non-pesticide agriculture that is safe for health, the development of farmers group-based capital strength, as well as to strengthen physical facilities and network synergy in product marketing. The presence of this program is to ensure better farmer life and reduce the threat of Indonesian food security.

Pada tahun 2018, Dompot Dhuafa mengembangkan Program Pertanian Sehat Buah Naga di Subang, Jawa Barat. Melalui program ini komunitas petani dampingan diberikan fasilitas modal usaha pertanian seperti benih, sarana produksi pertanian dan greenhouse, pendampingan on-farm, dan pendampingan pemasaran untuk mengakses pasar yang lebih luas dan modern. Program bertujuan agar petani lebih sejahtera dan beralih dari mustahik menjadi muzaki.

Komoditas unggulan program pertanian sehat 2016-2018 ialah nanas jenis *smooth cayane*, buah naga merah, dan buah naga putih, yang berlokasi di Subang-Jawa Barat. Dalam satu tahun di luas lahan 25,2 program ini berpotensi menghasilkan 640 ton buah-buahan tersebut.

In 2018, Dompot Dhuafa developed the Dragon Fruit Health Farming Program in Subang, West Java. Through this program, the assisted farming community was supported with agricultural business capital facilities, such as seeds, agricultural production equipment and greenhouses, on-farm assistance, and marketing assistance to be able to access a wider and more modern market. The aim of this program is create more prosperous farmers and transform them from mustahiq to muzakki

The leading commodity of health farming program in 2016-2018 are Smooth-Cayane pineapple, red and white dragon fruits, which is located in Subang, West Java. In one year, this program has a potential to produce 640 tons fruits on a land area of 25.2.

Bermula dari “Tebar 999 Hewan Kurban” pada 1994 yang kemudian berganti nama menjadi Tebar Hewan Kurban (THK) pada tahun 1997, THK bersinergi dengan program pemberdayaan peternak yang menyiapkan hewan kurban di daerah sasaran. Melalui program ini, masyarakat duaafa tidak hanya menerima manfaat dalam bentuk daging kurban, tetapi juga manfaat ekonomi karena pemeliharaan ternak yang mereka lakukan.

Dalam perkembangannya program peternakan yang dikembangkan berbasis pada peternakan-peternakan rakyat (mustahik peternak) dan nelayan pada sentra lokal yang memiliki keunggulan untuk dikembangkan sesuai potensi dan sumber daya yang dimiliki dalam rangka meningkatkan tingkat pendapatan peternak dan pengembangbiakan unggulan lokal di berbagai daerah. Program-program tersebut antara lain:

- 1 Pemberdayaan Peternak Puyuh, Medan
- 2 Pemberdayaan Nelayan Bobara, Wakatobi
- 3 Pemberdayaan Nelayan Sidat, Sukabumi
- 4 Pemberdayaan Peternak Lele Organik, Ponorogo
- 5 Pemberdayaan Nelayan Kerapu, Situbondo
- 6 Pemberdayaan Nelayan Kerang Hijau, Serang
- 7 Pengembangan Sentra Ternak THK

Starting from “999 Qurban Animals Distribution” in 1994 which were later renamed to Qurban Animals Distribution (THK) in 1997, THK synergized with a farmer empowerment program that prepared qurban (sacrificed) animals in the target area. Through this program, the duaafa receives benefits not only in the form of sacrificial meat, but also economic side because of the livestock raising they do.

In its progress, the initiated livestock programs are based on people’s farms (mustahiq farmers) at local centers that possess the quality to be developed based on their potentials and resources in order to increase the level of farmers income and qualified local breeding in various regions. These programs include:

- 1 *Empowerment of Quail Farmers, Medan*
- 2 *Empowerment of Bobara Fishermen, Wakatobi*
- 3 *Empowerment of Eel Fishermen, Sukabumi*
- 4 *Empowerment of Organic Catfish Farmers, Ponorogo*
- 5 *Empowerment of Kerapu Fishermen, Situbondo*
- 6 *Empowerment of Green Shellfish Fishermen, Serang*
- 7 *The development of THK Livestock Center*

Pengembangan Keuangan Mikro Syariah (PKMS) lahir pada akhir 2009, dilatarbelakangi cita-cita Dompot Dhuafa untuk membangun lembaga keuangan yang berpihak pada masyarakat duaafa guna menopang sinergi dan permodalan. PKMS didirikan untuk memainkan fungsi bank orang miskin yang sesungguhnya.

Fasilitas pinjaman atau pembiayaan yang diberikan kepada masyarakat kecil yang ingin bangkit, tanpa dihantui momok bunga dan margin yang tinggi.

Transaksi dominan yang dikembangkan adalah berbasis pada akad dana kebajikan (*Qardhul Hasan*). Pada tahap awal (dua tahun pertama), akad dana kebajikan ini menempati porsi 100 persen. Sumber dananya berasal dari zakat, infak, sedekah, dan dana *Corporate Social Responsibility* (CSR) serta dana sosial lainnya.

Saat ini program PKMS terdiri dari dua jenis, yaitu

Sharia Micro Finance Development (PKMS) was founded at the end of 2009. The background of its establishment motivated by Dompot Dhuafa idealism to build financial institutions that favor the less fortunate (dhuafa) to support the synergy and capitalization. PKMS was established to function as the bank for the poor.

Loan or financing facilities provided for the poor who want to increase their living standards without being haunted by the high of interest and margin,

The dominant transaction that is developed was based on the fund of virtue contract (Qardhul Hasan). At the initial stage (the first two years), this contract of virtue funds occupied a portion of 100 percent. The sources of funds arose from zakat, infaq, shadaqah, and Corporate Social Responsibility (CSR) and other social funds.

Currently, the PKMS program consists of two types, namely:

Social Trust Fund *Social Trust Fund*

Social Trust Fund (STF) memiliki konsep koperasi syariah yang memberikan pinjaman bantuan modal usaha bagi para pelaku usaha mikro yang mudah dan cepat. Kekuatan utama STF adalah didasarkan pada kepercayaan di antara pengelola dan penerima manfaat.

Social Trust Fund (STF) has the concept of sharia cooperation that provides easy and fast loans of business capital assistance to micro and small businesses. The main strength of STF is based on trust between managers and beneficiaries

Baitul Mal Wa Tamwil *Baitul Mal Wa Tamwil*

Baitul Mal Wa Tamwil (BMT) memiliki konsep kelembagaan komunitas, dimana pendiri maupun anggotanya adalah mustahik dengan dukungan modal usaha. BMT melakukan penghimpunan dana dari para pemberi modal dari berbagai unsur masyarakat sehingga mampu memainkan peran lembaga untuk meningkatkan kesejahteraan masyarakat.

Baitul Mal Wa Tamwil (BMT) has the concept of community institutions, where the founders and their members are mustahiq with the support of venture capital. Baitul Mal Wa Tamwil is raising funds from capital providers from various elements of society so that they are able to play the role of institutions to improve community welfare

TRADING AREA

TRADING AREA

Program ini merupakan solusi pemasaran bagi UMKM duaafa, dengan membangun jaringan untuk memasarkan produk-produk binaan dari pelaku usaha mikro pada masyarakat luas dan menjangkau konsumen akhir, sehingga daya tawar lebih baik dan berujung pada peningkatan kesejahteraan.

Dompot Dhuafa mengembangkan trading area dengan model bisnis sosial minimarket yang didirikan dan menjadikan masyarakat miskin sebagai pemiliknya. Produk yang didistribusikan dan dipasarkan berasal dari komunitas dampingan dan UMKM lokal. Karyawan yang bekerja adalah duaafa yang dilatih manajemen, sistem teknologi, pemasaran dan kerja tim secara intensif, lalu keuntungan usahanya disalurkan untuk membantu masyarakat miskin.

Program *Trading Area* yang dikembangkan oleh Dompot Dhuafa diantaranya:

This program is a marketing solution for Dhuafa's Micro Small Medium Enterprises (MSMEs) by building a network to market assisted products from micro-entrepreneurs to a wider community and to reach end consumers, hence, stronger bargaining power that leads to the welfare increase.

Dompot Dhuafa develops a trading area with a minimarket social business model that is established and enables the poor (duaafa) as the founders and owners. Products that are distributed and marketed originate from assisted communities and local MSMEs. The workers are the duaafa who are trained intensively in management, technology system, marketing and teamwork. The benefits of their businesses are used to support the poor.

The Area Trading Programs developed by Dompot Dhuafa includes:

Industri ritel minimarket Dayamart Trading house De Fresh

1 Dayamart Minimarket Retail Industry

2 De Fresh Minimarket

AGROINDUSTRI

AGROINDUSTRY

Agroindustri merupakan program peningkatan kesejahteraan masyarakat dengan konsep penumbuhan dan pengelolaan industri agro berbasis pedesaan. Tahun 2018 Dompot Dhuafa melihat potensi lokal nanas yang melimpah di Subang, Jawa Barat maka dibentuklah agroindustri pengolahan nanas menjadi pure dan selai nanas yang mempunyai nilai jual tinggi.

Agroindustry is a program to improve community welfare with the concept of growth and management of rural agro-based industries. In 2018, Dompot Dhuafa noticed the local potential of the pineapple in Subang, West Java. Afterwards, pineapple processing agroindustry was established that proceeds the pineapples into puree and jam which have a high selling value.

PENGEMBANGAN KAWASAN

AREA DEVELOPMENT

Pengembangan Kawasan adalah sebuah konsep pemberdayaan berbasis kawasan yang mengembangkan potensi-potensi masyarakat dan desa. Dompot Dhuafa coba mendesain dan mengembangkan kawasan tertentu dengan konsep “kawasan tumbuh dan terpadu berdasarkan landasan tata nilai Islam yang *rahmatan lil alamin*”. Program kawasan ini memiliki tujuan besar membangun pemberdayaan dalam arti luas, meliputi pembangunan sosio-ekonomi, budaya, dan nilai religi, dengan masjid sebagai sentral kawasan.

Di 2018 Dompot Dhuafa terus mengembangkan beberapa kawasan produktif yang memiliki karakter dan keunggulannya masing-masing, yaitu:

1 Kawasan Zona Madina

Kawasan yang satu ini berada di Jalan Raya Parung, Jampang, Kemang, Kabupaten Bogor. Dengan luasan 3,6 hektar tahun 2018 Zona Madina terus mengalami perkembangan pemberdayaan. Saat ini Zona Madina selain aktif di pemberdayaan kesehatan dengan Rumah Sehat Terpadu (RST), juga pemberdayaan ekonomi dengan budidaya ikan hias, budidaya jamur tiram, kampung ternak, rumah industri tahu, dan rumah kerajinan golok. Selain menghasilkan produk, semuanya kini menjadi destinasi wisata, salah satu yang paling favorit ialah rumah industri tahu.

Pemberdayaan program pendidikan di sini ada sekolah Smart Ekselensia, Makmal Pendidikan, dan Sekolah Guru Indonesia (SGI). Masjid sebagai pusat peradaban Zona

*Area Expansion is a regional-based empowerment concept that develops the potential of communities and villages. Dompot Dhuafa tries to design and develop certain areas with the concept of growing and integrated area with the foundation of Islamic values that are *rahmatan lil alamin*. The aim of this program is to improve empowerment in a broad sense including socio-economic development, culture, and religious values, with mosques as the central of the region*

In 2018 Dompot Dhuafa continued to develop several productive areas that have their own characteristics and advantages, namely:

1 Madina Zone

This area is located on Jalan Raya Parung, Jampang, Kemang, Bogor Regency. In 2018, with an area of 3.6 hectares, the Madina Zone continued to experience development of empowerment. At the present, Madina Zone is active not only in health empowerment with its Integrated Hospital (RST), but also in economic empowerment with its Ornamental Fish cultivation, Oyster Mushroom cultivation, Livestock Farms, Tofu Industry House, and Machete Craft house. In addition to producing products, currently they become tourist destinations, one that becomes the most favourite is the Tofu Industry House.

In term of Empowerment of educational program, there are Smart Ekselensia, Education Laboratory, and Indonesian Teacher School (SGI). The mosque that plays a role as as the

Madina pun aktif melakukan pemberdayaan sosial dan dakwah, salah satunya dengan kegiatan pemulasaran jenazah gratis untuk masyarakat dari Badan Pemulasaran Jenazah (Barzah).

Salah satu yang jadi magnet wisatawan ialah dari pemberdayaan budaya, ada Kawasan Wisata Jampang yang menyediakan berbagai area wisata edukasi dan kreatif untuk berbagai rentan usia, ada juga *Jampang English Village* (JEV), Kampung Silat Jampang, dan penyelenggaraan acara kesenian lainnya.

2 Klaster Pertanian Terpadu Indonesia Berdaya

Klaster yang terkenal dengan kebun buah naga, jambu kristal dan nanasnya ini berada di Desa Cirangkong, Kecamatan Teluk Jambe, Kabupaten Subang, Jawa Barat. Dengan total luas lahan wakaf 10 hektar Dompot Dhuafa berikhtiar memberikan manfaat sosial dan ekonomi kepada masyarakat melalui pemberdayaan dan usaha agribisnis berkelanjutan.

Program menyasar mulai dari budidaya hingga pengolahan pasca panen dengan mendirikan industri olahan buah berbasis pedesaan. Pada 2018, program ini telah membangun pabrik pengolahan nanas menjadi pure dan selai nanas, untuk kemudian dikemas dan dipasarkan.

Sedangkan lebarnya kebun buah naga organik telah mengundang banyak wisatawan untuk datang, menikmati kesegaran buah ini langsung dari kebunnya. Pengunjung juga bisa menikmati eduwisata di kebun jambu, produksi pepaya carica, tempat pengomposan, dan menginap di homestay.

Selama 2018, Klaster Pertanian Terpadu Indonesia Berdaya Subang telah menghasilkan 5.688 kilogram buah naga dan 2.285 kilogram buah naga. Sedangkan jasa penginapan homestay yang ada dimanfaatkan oleh 139 wisatawan.

3 Kawasan Ronting

Kawasan timur Indonesia ini berada tepat di utara pulau Flores, Nusa Tenggara Timur (NTT). Potensi sumber daya laut yang melimpah, ternak sapi bali, hingga pemandangan alamnya yang menawan bagi pelancong, mendorong Dompot Dhuafa berikhtiar mengembangkan kawasan Desa Nelayan Terpadu di sana.

Pada 2018 dana zakat dan wakaf telah membangun kembali beberapa sarana dan prasarana masyarakat, seperti Masjid Al-Istiqomah, dan tempat pelelangan ikan. Melihat potensinya yang masih banyak, Dompot Dhuafa terus menghadirkan pemberdayaan pemberdayaan lain dalam bidang ekonomi, seperti Ternak Sapi Bali yang sudah memiliki 56 ekor sapi, fasilitas Depo Solar, pengadaan kapal nelayan, dermaga dan lainnya.

center of the Madina Zone civilization is also active in carrying out social empowerment and da'wah, one of which is the activity of free corpse handling for the community from the The Corpse Service Agency (Barzah).

One of the tourist attractions comes from cultural empowerment. There is Jampang Tourism Area which provides various educational and creative tourism areas for all ages. Moreover, there are also Jampang English Village (JEV), Jampang Silat Village, and other art events

2 Indonesia Empowered-Integrated Agriculture

The cluster known for its dragon fruit, crystal guava and pineapple farm is located in Cirangkong Village, Teluk Jambe District, Subang Regency, West Java. With a total land area of 10 hectares of Dompot Dhuafa waqf endeavors to provide social and economic benefits to the community through empowerment and sustainable agribusiness.

This program targets in cultivations to post-harvest processing by establishing a rural-based fruit processing industry. In 2018, this program built pineapple processing plants which transforming pineapples into puree and jam, to be packed and marketed.

While the organic dragon fruit gardens attracted many tourists to savour the freshness of the fruit directly from the garden. Visitors can also enjoy edu-tourism in guava gardens, the production of carica papaya, cattle pens, composting areas, and staying at a homestay.

During 2018, Indonesia Empowered-Integrated Agriculture Cluster in Subang has produced 5.688 and 2.285 kilograms of dragon fruit. While, homestay service utilized by 139 tourists.

3 Ronting Area

This eastern region of Indonesia is located right in the north of the island of Flores, East Nusa Tenggara (NTT). The abundant potential of marine resources, Bali cattles, and the captivate natural scenery for the travelers, encourage Dompot Dhuafa to try to develop the Integrated Fisherman Village area there.

In 2018, zakat and waqf funds have rebuilt several community facilities and infrastructure, such as the Al-Istiqomah Mosque, and fish auction sites. Seeing its many potentials, Dompot Dhuafa continues to initiate other empowerments in the economic field, such as Bali Cattle that already has 56 cows, Depo Solar facilities, fishing boats and docks procurement and more.

PROGRAM SOSIAL

SOCIAL PROGRAMS

Program Sosial Kemanusiaan Dompot Dhuafa lahir untuk memberikan solusi masalah-masalah sosial dan kemanusiaan, baik nasional maupun global, yang merupakan bagian dari misi Lembaga untuk mentransformasikan nilai-nilai kebaikan di masyarakat, terlibat aktif dalam kemanusiaan global, serta melakukan advokasi kebijakan untuk mewujudkan sistem yang berkeadilan.

Dompot Dhuafa bersama dengan para relawan membantu saudara-saudara yang tertimpa musibah dan mereka yang membutuhkan bantuan, bukan hanya pada aspek material semata, tetapi juga dukungan moril dan pendampingan pemecahan masalah. Program-program ini terus diolah untuk memberikan pelayanan yang semakin maksimal bagi masyarakat, khususnya Indonesia.

Dompot Dhuafa Social Humanitarian Program was founded to provide solutions to social and humanitarian problems, both nationally and globally, which is part of the Institute's mission to transform good values in society, be actively engage in global humanity, and carry out policy advocacy to create an equitable system.

Dompot Dhuafa together with the volunteers helped the people who were struck down by the disasters and those who needed support, not only on material aspects but also moral support and problem-solving assistance. These programs continue to be processed to provide maximum service for the community, especially Indonesia.

PROGRAM TURUNAN LAYANAN MASYARAKAT

LPM PROGRAMS ARE

1 Layanan Mustahik (Lamusta) *Mustahiq Service (Lamusta)*

Lamusta merupakan layanan untuk memenuhi kebutuhan masyarakat yang bersifat mendesak baik insidental maupun rutin. Bentuk layanan dilakukan dengan dua model yakni layanan berupa bantuan langsung ke wilayah sasaran dan layanan reguler yang dilakukan di kantor LPM. Setiap pemberian bantuan selalu diikuti dengan proses bimbingan atau konseling dengan pendekatan dakwah.

Lamusta is a service to meet urgent community needs, both incidental and routine. The service is carried out in two ways, direct assistance to target areas and regular services carried out in the LPM office. The process of guidance or counseling with a dawah approach follows every provision of assistance.

2 Shelter Pasien *Patients Shelter*

Menyediakan rumah yang dijadikan sebagai hunian sementara bagi pasien duaafa dan keluarga pasien yang sedang berobat di RSCM, sehingga pasien dan keluarganya mendapat hunian yang layak. Selama berada di shelter, mereka mendapatkan bimbingan agama dan hidup sehat serta kebutuhan pokok untuk menunjang kehidupan selama di RSCM.

Provides houses as temporary shelters for poor patients and the families who are having treatment at the RSCM, so that they get decent housing. During the staying, they have religious guidance and healthy living as well as basic needs to support their lives while at RSCM.

3 Bina Rohani Pasien *Patients Soul Remedy*

Program ini mengadakan bimbingan rohani bagi pasien dengan sentuhan-sentuhan agama, baik pasien yang ada di rumah sakit maupun di rumah. Kegiatan bimbingan ini merupakan bagian integral dari bentuk pelayanan kesehatan dalam upaya pemenuhan kebutuhan bio-psycho-socio-spiritual yang komprehensif, karena pada dasarnya setiap diri manusia terdapat kebutuhan dasar spiritual.

This program holds spiritual guidance for patients with religious touches, both patients in the hospital and at home. This guidance activity is an integral part of the ahealth services in an effort to meet the needs of a comprehensive bio-psycho-socio-spiritual, because basically every human being has a basic spiritual need.

4 Bina Santri Lapas *Prison Student Remedy*

Bina Santri Lapas merupakan program bimbingan keagamaan bagi warga binaan di Lapas sebagai bentuk penyelamatan aqidah dan motivasi hidup yang lebih baik. Tujuan program ini untuk mempersiapkan agar pada saat keluar dari Lapas, warga binaan dapat hidup lebih baik dan dapat diterima di masyarakat serta membawa perubahan yang berarti dalam hidupnya.

Bina Santri Lapas (Prison Student) is a religious guidance program for assisted citizens in the prison as an Aqedah support system and a better life motivation. The aim of this program is to prepare them to have a better life and are accepted in the society as well as to embrace meaningful changes in their lives when they leave the prison later on.

PBH

PUSAT BANTUAN HUKUM

LEGAL AID CENTER

Pusat Bantuan Hukum (PBH), memulai program pada 8 Oktober 2015, merupakan program Dompot Dhuafa untuk pengentasan kemiskinan melalui program bantuan hukum, pelayanan hukum serta advokasi kebijakan publik untuk masyarakat miskin, rentan, dan marjinal demi memfasilitasi mereka dalam mengakses keadilan. Indonesia masih memiliki sistem yang tidak berkeadilan dikarenakan adanya pihak yang mengambil keuntungan dari sistem tersebut. Peran advokasi adalah menyelesaikan sumber permasalahannya dengan mengupayakan perbaikan sistem peraturan baik level mikro maupun makro.

Di tahun 2018, PBH mendampingi 200 warga Pulau Pari memperjuangkan hak atas tanah mereka bersama sejumlah organisasi masyarakat sipil lainnya yang tergabung dalam Koalisi Selamatkan Pulau Pari. Perkara ini masuk kedalam konflik agraria dan lingkungan berkepanjangan dari masalah reklamasi Jakarta. Masyarakat sangat rentan terhadap kesewenangan korporasi.

Legal Aid Center (PBH) program started on October 8, 2015. This is a Dompot Dhuafa program that is aimed to alleviate the poverty through legal aid programs, services and public policy advocacy for the poor, vulnerable and marginalized to facilitate them in accessing fair justice. The system in Indonesia is not equitable yet since there are parties who take advantage of it. Therefore, the role of advocacy is to resolve the root of the problem by seeking to improve the system of regulations both at the micro and macro levels.

In 2018, PBH accompanied 200 Pari Island residents to fight for their land rights along with a number of other civil society organizations joined in the Save the Island Coalition. This case belongs to a prolonged agrarian and environment conflict taken from the issue of the Jakarta reclamation. Communities are susceptible to corporate abuse.

Selain warga Pulau Pari, PBH juga mendampingi ratusan petambak di Bratasena, Lampung yang terusir, pekerja yang di PHK, sepihak dan warga tanah baru Beji, Depok untuk memperoleh keadilan.

Pada bidang advokasi kebijakan publik ikut berpartisipasi dalam upaya penolakan RUU Penghapusan Kekerasan Seksual (PKS). Selain itu juga memberikan pelatihan paralegal di 5 provinsi dan penyuluhan hukum pada sejumlah Lembaga Masyarakat.

PBH Dompot Dhuafa dalam peran advokasi kebijakan publik ikut berpartisipasi dalam upaya penolakan RUU Penghapusan Kekerasan Seksual (PKS), selain itu juga melakukan pelatihan paralegal di 5 provinsi dan penyuluhan hukum di Rumah Tahanan.

Tahun 2018, PBH juga menerima kunjungan verifikasi lapangan dari Kementerian Hukum dan HAM RI untuk memperoleh akreditasi sebagai Organisasi Bantuan Hukum.

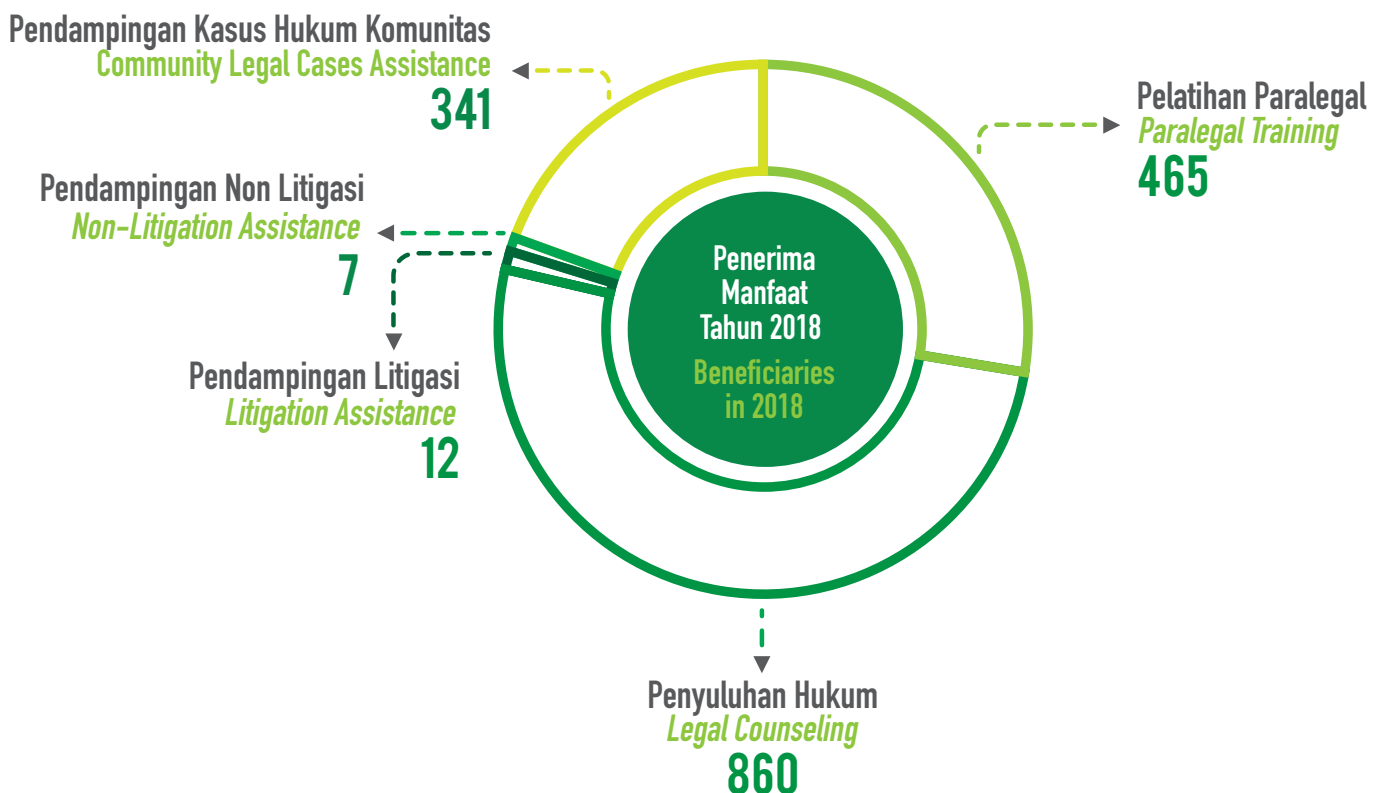

In addition to the residents of Pari Island, PBH also accompanied hundreds of farmers in Bratasena, Lampung, who were expelled and workers who were laid off unilaterally as well as the residents of Tanah Baru Beji, Depok, to obtain justice

In terms of public policy advocacy, PBH participates in the efforts to resist the Bill on the Elimination of Sexual Violence (PKS). In addition, it also provides paralegal training in 5 provinces and legal counseling in a number of prisons.

PBH Dompot Dhuafa, in its role as a public policy advocacy, participated in the efforts to resist the Bill on the Elimination of Sexual Violence (PKS). Moreover, it also provides paralegal training in 5 provinces and legal counseling in prisons.

In 2018, PBH also received a field verification visit from the Indonesian Ministry of Law and Human Rights to obtain accreditation as a Legal Aid Organization.

PROGRAM DAKWAH & BUDAYA

DA'WAH & CULTURE PROGRAM

Dalam memberantas kemiskinan, dakwah diperlukan untuk meningkatkan kualitas iman dan takwa, menanamkan karakter yang mulia (*akhlaqul karimah*), dan meningkatkan etos kerja. Kemiskinan iman dan takwa akan menyebabkan kemiskinan ekonomi baru yang dampaknya lebih besar. Sedangkan budaya bagi Bangsa Indonesia tentu tidak hanya sebagai penanda khas suatu daerah saja, melainkan sebagai media yang cepat dan tepat untuk syi'ar dan dakwah.

Sebagai lembaga nirlaba yang bertujuan mengangkat harkat sosial kemanusiaan kaum duafa, Dompot Dhuafa turut andil dalam dakwah Islam dan pelestarian budaya, dengan menyampaikan nilai-nilai Islam yang *rahmatan lil' alamin* bagi seluruh manusia dalam rangka meningkatkan kualitas ketakwaan kepada Allah subhana huwata'ala dan menyerukan tentang indahnya ibadah zakat yang merupakan rukun Islam ketiga, serta menjaga dan melestarikan kearifan budaya nusantara.

To eradicate poverty, da'wah is required because it could improve the quality of faith, implant noble character (akhlaqul karimah), and enhance work ethics. Lack of faith will cause new economic poverty with greater impact. While the definition of culture in Indonesian is certainly not only as a distinction of an area but also as a fast and appropriate media in dawah and delivering Islamic values.

As a non-profit institution that aims to raise the social-humanitarian values of the dhuafa, Dompot Dhuafa takes part in Islamic preaching and cultural preservation, by conveying Islamic values that are rahmatan Lil Alamin for all humans in order to improve the quality of faith to Allah subhana huwata'ala and to call for about the beauty of zakat as the third pillar of Islam, as well as to maintain and preserve the cultural wisdom of the archipelago.

Rentetan Bencana Alam Terparah Sejak Satu Dekade Terakhir

THE WORST NATURAL DISASTER SERIES SINCE LAST DECADE

Hayadi masih sibuk mengatur warganya mengumpulkan sumbangan, pada Minggu sore, 5 Agustus 2018. Kepala Dusun Gol, Kelurahan Medana, Kecamatan Tanjung, Kabupaten Lombok Utara itu menuturkan barang-barang berupa beras, sembako lainnya, dan pakaian layak pakai dikumpulkan dari warga untuk disumbangkan kepada korban gempa di Kabupaten Lombok Timur. Ini adalah kali kedua warga dusun menggelar aksi solidaritas sepekan terakhir.

Hayadi, The Chief of Gol, Medana Village, Tanjung Sub-District, North Lombok Regency, was still busy organizing his residents to collect donations on Sunday afternoon, August 5, 2018. He said that the items, such as rice along with other basic necessities and usable clothing, were collected from the residents to be donated to the earthquake victims in East Lombok Regency. That was the second time they held a solidarity action last week

Seminggu sebelumnya, tepatnya 29 Juli 2018, Kabupaten Lombok Timur dilanda gempa bumi. Lindu berkekuatan 6,4 Skala Richter tersebut berpusat di Kecamatan Sembalun. Setidaknya ada tiga kali gempa, dengan jarak hanya beberapa menit, mengguncang Lombok dengan skala getaran yang kuat. Badan Meteorologi, Klimatologi, dan Geofisika (BMKG) mengumumkan gempa bumi dangkal tersebut episentrumnya berada di sekitar Lombok Timur dan Lombok Utara. Sebanyak 20-an orang dilaporkan meninggal, ratusan luka, dan ribuan rumah warga di kaki Gunung Rinjani rusak berat.

A week earlier, on July 29, 2018 to be precisely, East Lombok Regency was hit by an earthquake. This 6.4 Richter Scale earthquake was centered in Sembalun District. There were at least three earthquakes, with the interval of within minutes, shattering Lombok with a strong vibration scale. The Meteorology, Climatology and Geophysics Agency (BMKG) announced that the epicenter of this shallow earthquake was around East and North Lombok. A total of 20 people were reported died, hundreds of people got injured, and thousands of houses at the hill of Mount Rinjani were severely damaged.

“

Kami juga kena (merasakan gempa) tapi tidak terlalu besar.

We were also hit (felt the earthquake) but not too strong.

-Hayadi-

”

“

Mudah-mudahan tidak ada gempa lagi di sini

we hope that there will be no other earthquakes happened here.

-Andi Malo,
a Dompét Dhuafa volunteer-”

Hayadi tidak menyangka hari ini gempa lebih dahsyat akan menghampiri dusun mereka. Bahkan di sore itu dirinya sempat menerima kunjungan sejumlah relawan Dompét Dhuafa yang tengah diterjunkan di Lombok Timur. Para relawan tersebut mampir sejenak setelah dari Mataram belanja material untuk pembangunan hunian sementara korban gempa di Lombok Timur.

It wasn't in Hayadi's mind that a more powerful earthquake would approach their village that day. In fact, in the afternoon he had received a visitor from few Dompét Dhuafa volunteers who were deployed in East Lombok. The volunteers stopped by from Mataram after shopping for the materials needed to build the temporary shelters for the East Lombok Earthquake victims.

Ternyata bencana belum puas mengintai. Mendadak bumi kembali bergetar. Meskipun sebenarnya ini adalah rentetan gempa yang sudah kesekian ratus kalinya, dalam skala kecil dan sedang, terjadi sejak 29 Juli 2018. Tetapi malam itu, bersamaan dengan datangnya waktu shalat isya, Kabupaten Lombok Utara, Nusa Tenggara Barat diguncang gempa dahsyat dengan magnitudo 7,0 Skala Richter.

It turned out that the calamities did not stop there. In a sudden, the earth trembled again even though this actually was a series of earthquakes that had happened for hundred times on a small and medium scale and had occurred since July 29, 2018. But that precise night, at the same time with Isya prayer, North Lombok Regency, West Nusa Tenggara was shaken by a massive earthquake with magnitude of 7.0 Richter Scale

Berada di kawasan pusat gempa, Dusun Gol, Desa Medana termasuk yang terdampak paling parah. Nyaris seluruh infrastruktur bangunan rata dengan tanah. Seluruhnya, sebanyak 355 rumah, di Dusun Gol rusak dan ambruk.

Alhamdulillah, segala puji bagi Allah, tidak ada korban jiwa di dusun berpenduduk 789 jiwa tersebut.

Located in the Earthquake's epicenter, Gol in Medana Village is one of the worst affected areas. Almost all buildings there destroyed,, flat on the ground. In total, there were 355 houses in Gol that were damaged and collapsed. Alhamdulillah, all praise be to Allah, there were no fatalities in this village with a population of 789 people

Multibencana Hantam Sulawesi Tengah

Belum tegak bangunan-bangunan di Lombok, kini multibencana menerpa Sulawesi Tengah (Sulteng) Jumat, 28 September 2018. Gempa pertama kali mengguncang Donggala, Sulteng pukul 15.00 WITA. Gempa tersebut berkekuatan magnitudo 6 dengan kedalaman 10 kilometer. Akibat gempa itu, satu orang meninggal dunia, 10 orang luka, dan puluhan rumah rusak di Kecamatan Singaraja, Kabupaten Donggala.

Tak disangka, hanya selang tiga jam gempa kembali mengguncang tepat pukul 18.02 WITA dengan kekuatan lebih besar, yaitu magnitudo 7,4 dengan kedalaman yang sama di jalur sesar Palu Koro. Gempa tersebut lah yang menegaskan peringatan dini siaga dan waspada tsunami dari Badan Meteorologi, Klimatologi, dan Geofisika (BMKG). Kondisi Donggala, Sulteng benar-benar porak poranda.

Gayung bersambut, lepas gempa, tsunami setinggi 6 meter benar-benar terjadi, dan menyapu Kota Palu dan sebagian Kabupaten Donggala, Jumat 28 September 2018. Jangankan berbenah pasca bencana, sejak itu gempa susulan terus terjadi di kawasan tersebut hingga Jumat malam. Tercatat, setidaknya ada 13 gempa dengan kekuatan di atas magnitudo 5 sejak pukul 16.00 WITA hingga 23.26 WITA.

Di Kelurahan Petobo, 12 km dari Kota Palu, tanah seketika berubah seperti lumpur hisap. Bocah-bocah kecil yang sedang bermain di lapangan kota sontak berlarian, beberapanya telah digulung lumpur yang mengeras. Sejumlah penyintas mengatakan mereka dikejar gelombang lumpur yang melahap bangunan dan menyeret manusia ke dalamnya. Rumah-rumah mereka bergerak, umumnya sejauh 2 kilometer dari tempat asalnya.

Waktu terus berlalu dengan derasnya arus bantuan ke NTB juga Sulteng, baik dari lembaga sosial nasional termasuk Dompot Dhuafa, juga lembaga internasional.

Multi-disaster strikes Central Sulawesi

Buildings in Lombok were not even started to rebuild yet, when suddenly, a calamity, a multi-disaster, stroke Central Sulawesi on Friday, September 28, 2018. The first earthquake shook Donggala, Central Sulawesi at 15.00 WITA. The earthquake had a magnitude of 6 Richter Scale with a depth of 10 kilometers. As a result of the earthquake, one person died, 10 people got injured, and dozens of houses were damaged in Singaraja District, Donggala Regency.

Unexpectedly, just three hours later from the first incident, the earthquake shook again. At 18.02 WITA with much greater strength, a magnitude of 7.4 Richter Scale with the same depth on the Palu Koro fault line. That was the earthquake that triggered early warning and tsunami alert from the Meteorology, Climatology and Geophysics Agency (BMKG). Donggala's condition, Central Sulawesi was truly devastated at that time

Unprecedented, minutes the earthquake subside, a 6-meter-high tsunami hit and swept away Palu City and parts of Donggala Regency on Friday, September 28, 2018. Having no chances to mend the damages, the aftershocks continually happened until Friday evening. It was recorded that there were at least 13 earthquakes with a magnitude above 5 Richter Scale from 16.00 WITA to 23.26 WITA

In the Petobo Village, 12 km away from the City of Palu, the land suddenly altered becoming quicksand. Little boys who were playing in the city square suddenly running around saving their lives. Unfortunately, some of them had been rolled up by quicksand and hardened mud. A number of survivors said that they were chased by mud waves which devoured the buildings and dragged people inside. Their houses were moving, literally, as far as 2 kilometers away from their initial spots.

As time flown away, the assistance came swiftly both to NTB and to Central Sulawesi, not only from national social institutions like Dompot Dhuafa, but also from international institutions.

Letupan Akhir Tahun Anak Krakatau Berujung Tsunami

Indonesia menutup akhir tahun dengan letupan Gunung Krakatau yang memicu longsor lereng Gunung Anak Krakatau seluas 64 hektar pada Sabtu 22 Desember 2018, pukul 20.56 WIB.

Tepat pukul 21.30 WIB, petugas Pusat Gempabumi dan Tsunami BMKG mendapat laporan kepanikan masyarakat di wilayah Banten dan Lampung, karena air laut pasang yang tidak normal. Kenaikan gelombang laut atau tsunami pun sontak menyapu pemukiman di pesisir Lampung dan Banten malam itu.

Indonesia menutup tahun 2018 dengan bencana alam paling parah sejak satu dekade terakhir. BNPB mencatat 4.231 jiwa meninggal dunia dan hampir tiga juta jiwa terpaksa mengungsi, dari 2.426 bencana alam yang terjadi sepanjang tahun.

Tercatat, 18 bencana alam ditangani Dompot Dhuafa sepanjang 2018, diantaranya ada tiga bencana besar di atas yang menjadi sorotan khusus Dompot Dhuafa, yaitu gempa bumi di Nusa Tenggara Barat, multi bencana di Sulawesi Tengah, dan tsunami di Selat Sunda.

Dalam merespon bencana-bencana tersebut Dompot Dhuafa bersama masyarakat dan relawan menurunkan tim respon, tim medis dan para relawan lainnya dalam masa tanggap darurat. Sedangkan pada masa pemulihan (*recovery*) Dompot Dhuafa memberikan bantuan, layanan dan program yang mendukung percepatan pemulihan, seperti layanan psikososial, hunian sementara, layanan religi, layanan medis, layanan pendidikan, hingga pemulihan ekonomi melalui program pemberdayaan ekonomi.

Dalam hal respon Dompot Dhuafa melakukan evakuasi korban, layanan dapur umum yang menetap maupun keliling, layanan medis baik pengobatan ringan hingga operasi, layanan air dan sanitasi, juga distribusi logistik.

Sementara untuk pemulihan pasca bencana atau *recovery* Dompot Dhuafa melakukan layanan psikososial dan religi, membangun hunian sementara, menyediakan sekolah darurat, menyediakan guru bantu, membangun masjid/mushala darurat, membangun sumur-sumur bor, hingga reparasi kendaraan gratis bagi masyarakat.

End-of-year Anak Krakatau Mount Eruption and ended with a Tsunami

Indonesia closed the end of the year with the eruption of Mount Krakatau which triggered a landslide slope of Mount Anak Krakatau covering an area of 64 hectares on Saturday, December 22, 2018, at 8:56 p.m.

At precisely 9:30 p.m. WIB, the officials at Earthquake and Tsunami Center - BMKG received reports of the unusual tides from people in Banten and Lampung regions. The increase in sea waves or tsunamis suddenly swept away the houses on the coast of Lampung and Banten that night

The year of 2018 was closed by the most severe natural disasters since the last decade. BNPB recorded that there were 4.231 people died and nearly three million people were displaced, out of 2.426 natural disasters that occurred throughout the year.

It was recorded that 18 natural disasters had been handled by Dompot Dhuafa throughout 2018, including three major disasters above that became the focus of Dompot Dhuafa, namely the earthquake in West Nusa Tenggara, multi-disaster in Central Sulawesi, and the tsunami in the Sunda Strait.

*In responding to these disasters, Dompot Dhuafa and the community along with the volunteers sent response teams, medical teams and other volunteers during the emergency response stage. While in recovery stage (*recovery*) Dompot Dhuafa provided assistances, services and programs that support the acceleration of the recovery, such as psychosocial services, and temporary shelters, as well as religious, medical, education services, to the economic recovery through economic empowerment programs.*

In terms of disaster response, Dompot Dhuafa evacuated victims, settled and mobile public kitchen services, medical services starting from mild treatment to surgery, water and sanitation services, and logistics distribution.

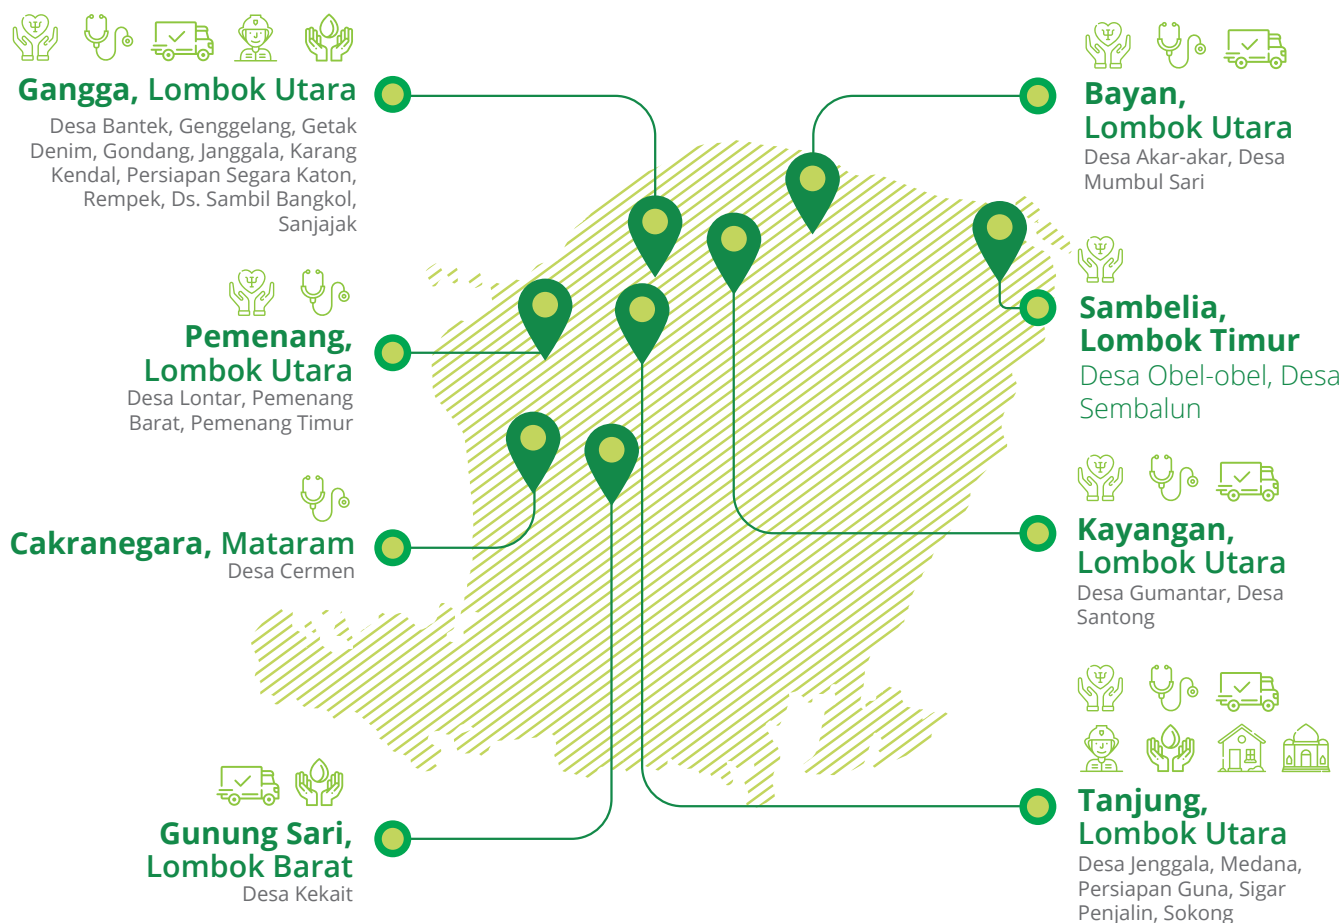

Meanwhile, in the stage of post-disaster recovery, Dompot Dhuafa carried out the psychosocial and religious services, built temporary shelters, provided emergency schools and assisting teachers, built mosques / emergency prayer rooms and drilled wells, and repaired vehicles for the community at no cost.

INOVASI DALAM KEBENCANAAN INNOVATION WITHIN CALAMITIES

Di tahun 2018 Dompot Dhuafa melakukan beberapa inovasi untuk mengoptimalkan proses respon hingga pemulihan pasca bencana. Berikut inovasi beserta implementasinya:

In 2018, Dompot Dhuafa made several innovations to optimize the response process to post-disaster recovery. The following are the innovations and their implementations:

1

Rumah Hunian Sementara (Rumtara) Temporary Residential Houses (Rumtara)

Hunian sementara diperuntukan bagi masyarakat yang kehilangan rumah atau mengalami rusak berat. Pembangunannya bekerjasama dengan DD Konstruksi dari Dompot Dhuafa Social Enterprise (DDSE).

The temporary houses are intended for people who have lost their homes or those whose houses have been severely damaged. In its development, Rumtara was in collaboration with DD Construction from Dompot Dhuafa Social Enterprise (DDSE).

Fundraising or collection at Dompeth Dhuafa is carried out by related divisions under the Directorate of Zakat and Waqf Mobilization. Throughout the year, Dompeth Dhuafa carried 3 major themes as follows:

1

Zakatnesia: 25 Tahun Membentang Kebaikan Bersama Anda ***Zakatnesia: 25 Years Spreading Goodness with You***

Di usia ke-25 tahun Dompeth Dhuafa mengusung 3 konsep, yaitu: memberikan beragam pengalaman, menyajikan rasa kepedulian dan menyalakan semangat kolaborasi inovatif dan kreatif bersama masyarakat. Dompeth Dhuafa menyuarakan semangat bersama untuk memutus lingkaran kemiskinan di Indonesia. Zakat merupakan kunci pembuka bagi mustahik untuk bebas dari kunci kemiskinan menuju sejahtera. Kehadiran Ramadhan 1439 H, menjadi momentum untuk terus membangkitkan gelora berbagi melalui zakat, infak, sedekah, dan wakaf (ZISWAF), sebagai upaya memperbaiki kesejahteraan di seluruh pelosok Indonesia. Dompeth Dhuafa mengajak masyarakat di belahan dunia untuk terus semangat membentangkan kebaikan, terutama bergerak dalam misi kemanusiaan melalui berbagai program.

At the age of 25 years, Dompeth Dhuafa carries out 3 main concepts, namely: providing a variety of experiences, presenting a sense of caring and igniting the spirit of innovative and creative collaboration with the community. Dompeth Dhuafa called out the spirit to cut off the poverty in Indonesia. Zakat becomes the main key for mustahiq to be free from the poverty and head to the prosperity. The presence of Ramadhan 1439 H became a momentum to continue to arouse the excitement of sharing through zakat, infaq, shodaqoh and waqf (ZISWAF) in order to improve the society welfare in all corners of Indonesia. Dompeth Dhuafa invites people in all parts of the world to continue to encourage goodness, especially in humanitarian missions through various kinds of programs.

Kurbanesia, Menjawab Panggilan Zaman *Kurbanesia, Responding to the Call of Time*

Salah satu syarat syariat Islam yang memiliki dua dimensi, sosial dan ritual adalah kurban. Selain mengamalkan sunnah Nabi Ibrahim dan memenuhi tuntunan Islam, ibadah ini memiliki dampak yang besar, baik sosial maupun ekonomi. Di sisi ekonomi, perputaran uang dari transaksi jual beli hewan kurban sangat besar. Dari sisi sosial, ibadah kurban mengandung esensi kepedulian dan kebahagiaan. Kurbanesia merupakan semangat kurban untuk seluruh masyarakat Indonesia untuk dunia dan menjawab panggilan zaman adalah penegas bahwa Dompét Dhuafa harus siap memberikan kontribusi terbaik untuk sesama, seiring perubahan dan tantangan zaman. Sebagaimana tahun sebelumnya, di Idul Adha 1439 H pekurban Dompét Dhuafa juga diberikan kemudahan untuk dapat menentukan lokasi sebaran manfaat ibadah kurbannya. Serta untuk mengikuti perkembangan tren belanja online, Dompét Dhuafa menggandeng *e-commerce* besar seperti tokopedia, bukalapak, blanja, elevenia dan lain-lain. Donasi online via website kurban. dompetdhuafa.org dan platform *crowdfunding* bawaberkah.org

Sacrificing is one of the requisites of Islamic law which has social and ritual dimension. In addition to applying Prophet Ibrahim's sunnah and fulfilling Islamic guidance, this worship also has a great impact, both social and economic. On the economic side, the velocity of money from the sale and purchase of Qurban animals is very large. From the social side, sacrificial worship contains the essence of caring and happiness. Kurbanesia is a spirit of sacrifice for all Indonesian as well as people around the world and an effort to answer the call of the times. Therefore, it is also a decisive sign for Dompét Dhuafa that they must be ready to give the best contribution to others, along with the changes and challenges of the times. As in the previous year, at Eid al-Adha 1439 H, Dompét Dhuafa donors were also given the convenience of being able to determine the distribution location of their qurbans. Apart from that, in order to keep abreast with the online shopping trend, Dompét Dhuafa cooperates with popular e-commerce such as tokopedia, bukalapak, blanja, elevenia and others. Moreover, people are able to donate online as well via the website of sacrificial. ompetdhuafa.org and the crowdfunding platform that is bawaberkah.org

Humanesia 2018: Kebaikan Kuatkan Kita *Humanesia 2018: Goodness Strengthens Us*

Humanesia digulirkan dalam semangat untuk terus merangkul asa semua umat manusia, menyatu dalam ikatan batin yang sama dalam menciptakan energi kebaikan sehingga masyarakat marjinal akan menerima manfaat secara merata. Semua dapat ikut terlibat dalam mewujudkan asa mereka, dimanapun berasal dan berapapun kontribusi terbaik yang bisa mengalir berkahnya. Isu-isu kemanusiaan seperti kebencanaan dan lainnya memiliki hal positif yakni pemersatu dari hadirnya kebaikan-kebaikan di masyarakat.

Humanesia is rolled out in the spirit to continuously embrace hopes of all people and to unite in the same inner bond in creating positive energy so that the marginalized people will receive the benefits equally. Everyone can be involved in realizing their hopes, wherever they come from and how much ever the best contribution that they can give. Humanitarian issues such as disaster and others have positive sides, one of them is as a mean to unify people that created from the society goodness.

Parni Hadi

Ketua Pembina

(Head of Advisory Board)

Parni Hadi lahir di Madiun, Jawa Timur, pada tanggal 13 Agustus 1948. Beliau memulai karir sebagai wartawan di Kantor Berita ANTARA tahun 1973, Pendiri/Kepala Perwakilan LKBN ANTARA untuk wilayah Eropa di Hamburg, Jerman Barat (1980-1986), ikut mendirikan dan menjadi Pemimpin Umum/Pemimpin Redaksi ANTARA (1998-2000), Direktur Utama LPP RRI (2005-2010). Beliau pun sebagai penerima Bintang Mahaputra Utama sebagai Tokoh Pers Nasional 1999. Sampai dengan saat ini masih aktif menulis di beberapa surat kabar dan media online.

Sebagai salah satu bentuk dakwah bil hal tahun 1993, beliau mendirikan Yayasan Dompét Dhuafa Republika dan mencanangkannya sebagai program pengentasan kemiskinan. Program ini lahir dari inspirasi di Gunung Kidul, Yogyakarta, bersama para aktivis dakwah yang ada di sana (Corps Dakwah Pedesaan). Beliau bersama teman-temannya memulai Dompét Dhuafa di sebuah rubrik di halaman muka Harian Republika dengan tajuk “Dompét Dhuafa” sebagai gerakan kecil pengumpulan dana dari masyarakat untuk program-program sosial. Berkat gagasan dan inisiasinya tersebut Dompét Dhuafa terus berlanjut hingga berkembang manfaatnya di seluruh Nusantara bahkan tingkat global.

Selain itu, Beliau juga pegiat program Green Radio selama memimpin 2012, pegiat seni budaya tradisional (pemain ketoprak) dan perintis Information Safety Belt, dengan mendirikan stasiun RRI di sejumlah titik perbatasan NKRI. Beliau pun menjadi Ketua Dewan Nasional Indonesia untuk Kesejahteraan Sosial (DNIKS) bidang Relawan dan Peduli Bencana, Ketua Himpunan Pandu dan Pramuka Wreda (HIPPRADA), dan pernah menjabat Waka Kwarnas/ Ketua Satgas Pramuka Peduli. Pendekar Silat Setia Hati Terate ini pun juga menjabat sebagai Ketua Umum Ikatan Relawan Sosial Indonesia (IRSI).

Parni Hadi was born in Madiun, East Java, on 13 August 1948. He began his career as a journalist in ANTARA News Agency in 1973, and then became Founder/Head of LKBN BETWEEN for Europe in Hamburg, West Germany (1980-1986), co-founded and become General Leader/Editor in Chief ANTARA (1998-2000), President Director of LPP RRI (2005-2010). He was also the recipient of Bintang Mahaputra Utama as the National Press Figures 1999. Until today, he is still actively writing in several newspapers and online media.

As a form of dakwah bil hal, in 1993 he founded Dompét Dhuafa Republika Foundation and launched it as a poverty alleviation program. This program was born from the inspiration in Mount Kidul with dawah activists who were there (Rural Dawah Corps). He and his friends started Dompét Dhuafa in a column on the front page of the Republika Daily with the headline “Dompét Dhuafa” as a small movement of fundraising from the community for social programs. Thanks to the idea and initiation, Dompét Dhuafa continues to grow its benefits throughout the archipelago even globally.

In addition to that, he is also a Green Radio program campaigner during his leadership period in 2012, a traditional cultural artist (a ketoprak player), and Information Safety Belt pioneer by setting up RRI (The Radio of the Republic of Indonesia (Radio Republik Indonesia)) stations at a number of border points of NKRI. He also served as the head of the Indonesian National Council for Social Welfare (Dewan Nasional Indonesia untuk Kesejahteraan Sosial (DNIKS)) in Volunteer and Disaster Response, head of HIPPRADA (Senior Scout Association (Himpunan Pandu dan Pramuka Wreda), and served as vice head of national quarter and head of the Scout Care Task Force (Satgas Pramuka Peduli). He is a member of Silat Setia Hato Terate, and serves as the head of IRSI (Indonesian Social Volunteers Association (Ikatan Relawan Sosial Indonesia)).

Rahmad Riyadi

Ketua Pengawas

(Head of Supervisors Board)

Sebelum menjabat sebagai Presiden Direktur Dompot Dhuafa (2003-2008), beliau menjabat sebagai Manajer Keuangan dan Manajer Sirkulasi Harian Republika. Saat mulai bekerja di Dompot Dhuafa pada tahun 2000, beliau langsung ditugaskan sebagai Direktur Keuangan, dan setahun kemudian menjadi Direktur Penghimpunan. Beliau diangkat sebagai Presiden Direktur sesuai dengan Surat Keputusan pada 1 Desember 2003.

Selama kepemimpinannya, beliau memprakarsai pembentukan cabang Dompot Dhuafa di Hong Kong untuk melayani sekitar 150 ribu buruh migran di sana. Beliau meluncurkan program pelayanan untuk buruh migran dengan tagline 'Sahabat Pekerja Migran'. Di masanya, Dompot Dhuafa mendirikan sekolah berkualitas tinggi bernama SMART Ekselensia Indonesia.

Before serving as the president of Dompot Dhuafa (2003-2008), he served as financial manager and circulation manager in Republika. When he started working at Dompot Dhuafa in 2000, he was directly assigned as finance director, and a year later became director of collection. He was appointed as the president in accordance with Decree dated December 1, 2003.

During his leadership, he initiated the establishment of Dompot Dhuafa branch in Hong Kong to serve about 150,000 migrant workers there. He launched a service program for migrant workers with the tagline 'Friends of Migrant Workers'. In his time, Dompot Dhuafa has a high quality school named SMART Ekselensia Indonesia
